

Appendix A: NQIIC Nursing Home Survey Instrument

Introduction and Informed Consent 1

[READ IF CONTACTED WITH LETTER OR EMAIL ONLY]

We're calling you on behalf of The Centers for Medicare & Medicaid Services, or CMS, to learn about quality improvements in nursing home facilities and the types of resources that are helpful in this area. We're conducting a [20-minute survey] asking about the resources that your facility uses for quality improvement efforts.

We hope [FACILITY NAME] will participate in the survey and provide information that will help CMS improve its quality improvement programs. This survey is voluntary. You may stop participating in the survey at any time, and you don't have to answer every question. Please know that neither your name nor the name of your facility will ever appear in any reports from the findings. What you say during the survey's administration will remain private and will not in any way affect your facility's relationship with CMS.

For this survey, we're seeking the person who [for NQIIC facilities] works most closely with [INSERT NAME OF LOCAL QIN-QIO] and / [for non-NQIIC facilities] who is most knowledgeable about the quality improvement activities your nursing home has been working on. If your nursing home is part of a nursing home chain, we'd like to interview someone who works at [FACILITY NAME], rather than someone at the corporate office level who's responsible for quality improvement for several facilities.

Before my first question, I need to tell you this survey has been approved by the Office of Management and Budget, or OMB, as required by the Paperwork Reduction Act. The OMB approval number for this survey is **0938-XXXX**.
