

Appendix C: Instrument 3 – General wellbeing

Introduction

Thank you for engaging with Project SPARK (Supporting Partnerships to Advance Research and Knowledge) to help your agency adapt to disruptions brought on by the COVID-19 pandemic. The goal of Project SPARK generally is to equip state and local TANF programs with tools and skills to be better users and producers of evidence. We are conducting a series of short surveys designed to: (1) get your feedback about the usefulness of technical assistance you have received through Project SPARK around program operations during COVID-19, and (2) learn about how your agency has adapted to address challenges for both staff and customers during this public health crisis. This is the third of seven planned surveys. Each survey begins with the same four background questions, followed by a unique set of themed questions. The average response time for this collection of information is 10 minutes.

Providing information is voluntary, and all individual responses collected will be kept private and confidential to the extent permitted by law. Responses will help us improve the technical assistance we provide to programs—both the type of information we provide and the way we provide it—so please be candid. Should you have any questions about this survey or about Project SPARK generally, please contact Michelle Derr, Project SPARK director, at 202-484-4830 or mderr@mathematica-mpr.com with any questions.

Paperwork Reduction Act Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 0970-0531 and it expires 5/31/2021.
