Great, thank you for confirming this information. As I mentioned earlier, RTI talked to your family as a part of a previous study many years ago, the National Survey of Child and Adolescent Well-Being (NSCAW). Now, in this new Survey of Family Well-Being, we are following up with those same participants approximately 7 to 14 years after the last time your family was interviewed. We are interested in interviewing parents of children who were adopted.

**[IF PARENT OF MINOR OF ADULT CHILD WHO IS ELIGIBLE FOR INTERVIEW]** By doing this study, we hope to understand the experiences of families who have been involved with the child welfare system – both from the perspective of the parents as well as your child. We would like to learn more about families’ experiences with adoption.

**[IF PARENT OF CHILD INELIGIBLE TO COMPLETE INTERVIEW]** By doing this study, we hope to understand the experiences of families who have been involved with the child welfare system. We would like to learn more about families’ experiences with adoption.

We want to make participation as easy as possible for you. We offer two ways for you to participate based on your schedule and preference. You can participate by telephone or you can complete the survey online. Choosing the online version of the survey allows you to work at your own pace. I can provide the web survey link over the phone along with your PIN for accessing the survey. If you choose the telephone version, we can get started now. You will receive a \$30 gift card for taking part in this study.

Which option would you prefer?

2 = BY PHONE (GO TO Mode\_ByPhone)

3 = SCHEDULE AN APPOINTMENT (GO TO CB)

4 = NEEDS MORE INFORMATION (GO TO Remail)

## Mode\_ByWeb

Great, let me take a moment to collect your e-mail address. What is your e-mail address? I am collecting your e-mail address so that I can send you the survey link along with your PIN for accessing the survey for future reference.

The interview by telephone will take approximately 30 minutes to complete. Your participation is voluntary, and all information will be kept strictly private, as federal law requires. Your involvement does not affect any benefits or services you or your child receive. You may choose to skip any question in the interview for any reason. The questions will ask about things that may have happened in your child's life, such as experiencing homelessness, time living in foster care, or running away, and the services received at that time.

Some questions may make you feel uneasy or feel various emotions, such as sadness. If so, we will give you a list of resources that you can contact where there are people who may be able to help to talk with you about your feelings.

There are no costs associated with taking part in this study. You will receive a \$30 gift card for taking part in this study.

We keep your responses private to the extent permitted by the law. We keep your interview answers on a secure computer, your responses have an ID number instead of your name. We do not identify by your name. Your information will be combined with information from other people taking part in the study.

There are two important exceptions to the privacy information:

1) If during the interview we think your life or health is in serious danger, we will contact someone qualified to assist you.

2) At some point in the future, a different research company may take over this study. If that happens, with your consent, we would give your information to the other company.

If you decide to participate, we ask you also for your permission to link the responses you give now with the responses that we collected when you and your child participated years ago in the National Survey of Child and Adolescent Well-Being study. Prior to using or releasing this data for future research, we will de-identify it. "De-identify" means that we will remove or code any personal information that could identify you or your child before files are shared with other researchers to ensure that no one should be able to identify you from the information we share.

Do you have any questions, or can we go ahead and get started?
