

Department of the Treasury
Information Collection Request – Justification for Non-Substantive Change

Emergency Capital Investment Program OMB No. 1505-0267

July 22, 2021

Treasury requests a non-substantive change of OMB Control No. 1505-0267 in order to add revised instruments: Amended ECIP Application and Instructions (Amended Application). This instrument includes the application and instructions that applicants will use to apply for a capital investment under the Emergency Capital Investment Program. The ECIP Application and Instructions (Current Application), which is similar to the Amended Application, was previously approved by OMB. The Amended Application modifies the Current Application by adding definitions for previously undefined terms, deleting language that implies applications will be approved in the order received, clarifying the date for CDFI certification and the use of proxies for borrower demographics, and specifying that target market data should be at the county level. The ECIP Application and Instructions was described, and burden estimated, in the previously approved 1505-0267 supporting statement, so no change in burden is being requested.
