DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2018-0029]

Privacy Act of 1974; System of Records

AGENCY: Department of Homeland Security.

ACTION: Notice of a modified system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security (DHS) proposes to modify a current DHS system of records titled, “DHS/All-016 Correspondence Records System of Records.” This system of records allows the Department to collect and maintain correspondence records. The Department is updating this system of records to reflect changes to the categories of individuals, categories of records, and routine uses. Specifically, these changes include expanding the categories of individuals to include third party subjects of correspondence who may not be the sender or recipient. The Department is also expanding the categories of records to permit the collection of an individual’s phone number, call and customer service center records, receipt number, case numbers relevant to the correspondence, and account IDs associated with correspondence between the Department and the responding party. DHS is updating routine use (E) and adding routine use (F) to comply with new policies pertaining to data breach procedures. The Department is making non-substantive edits to the routine uses to align with previously published Department systems of records notices (SORNs). Lastly, this notice includes non-substantive changes to simplify the formatting and text of the previously published notice. This modified system will be included in the DHS inventory of record systems.

DATES: Submit comments on or before October 26, 2018. This modified system will be effective upon publication. New or modified routine uses will become effective October 26, 2018.

ADDRESSES: You may submit comments, identified by docket number DHS-2018-0029 by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. Background

DHS is updating this Department-wide SORN under the Privacy Act for DHS correspondence records. DHS will use this system to collect and maintain correspondence records submitted by the general public, DHS personnel, and others. This SORN does not apply to correspondence related to Freedom of Information Act (FOIA) or Privacy Act requests, or to correspondence received in the course of standard immigration benefit application processes. This SORN also does not cover the underlying records associated with a response to correspondence.

This system allows DHS to collect and maintain incoming information and responses to inquiries, comments, or complaints made to the Department. Categories of individuals, categories of records, and routine uses of this system of records notice have been updated to better reflect the Department’s correspondence record systems. This system modification will expand the categories of individuals to cover third parties whose information is submitted by the sender or recipient through an inquiry, comment, or complaint. DHS may collect and respond to this information from a third party. However, any investigations or awards initiated as a consequence of a third party’s correspondence would not be covered under this SORN. DHS is also expanding the categories of records to permit the collection of an individual’s phone number, call and customer service center records, receipt number,

and case or account number associated or referenced in the correspondence. DHS is modifying routine use (E) and adding routine use (F) to conform to Office of Management and Budget (OMB) Memorandum M-17-12, “Preparing for and Responding to a Breach of Personally Identifiable Information” (Jan. 3, 2017). All following routine uses are being re-lettered to account for the additional routine use. Non-substantive language changes have been made to additional routine uses to clarify disclosure policies that are standard across DHS and to align with previously published DHS SORNs. This modified system will be included in DHS’s inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. Additionally, the Judicial Redress Act (JRA) provides a statutory right to covered persons to make requests for access and amendment to covered records, as defined by the JRA, along with judicial review for denials of such requests. In addition, the JRA prohibits disclosures of covered records, except as otherwise permitted by the Privacy Act.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to OMB and to Congress.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

DHS stores records in this system electronically or on paper in secure facilities in a locked drawer behind a locked door. The records may be stored on magnetic disc, tape, and digital media.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records may be retrieved by individual name and date of correspondence.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Executive level records are permanent and files are cut off annually and transferred to the National Archives and Records Administration 15 years after cut-off date, in accordance with National Archives and Records Administration (NARA) General Schedule DAA-0563-2013-0005-0003. Public correspondence and communication that require no formal response or action are temporary and are destroyed when 90 days old, unless longer retention is authorized when required for business use, in accordance with NARA General Records Schedule (GRS) 6.4, item 20. Correspondence relating to a specific case or action is not considered public correspondence and will be filed and maintained with the appropriate case or action file under its specific retention schedule. DHS Components may create their own retention schedules for correspondence received. NARA GRS 4.1, item 010, covers when a Department, Component, office, or individual is tasked to review the correspondence or inquiry. Actual assignments and any reminder emails that an action is required are destroyed immediately, or when no longer needed for reference.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. DHS has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to any paper files or computer systems containing the records in this system is limited to those

individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

Individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Chief Privacy Officer and Chief FOIA Officer, or a component FOIA Officer, whose contact information can be found at <http://www.dhs.gov/foia> under "contact information." If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief Privacy Officer and Chief Freedom of Information Act Officer, Department of Homeland Security, Washington, DC 20528-0655. Even if neither the Privacy Act nor the JRA provide a right of access, certain records about a person may be available under FOIA.

When an individual is seeking records about himself or herself from this system of records or any other Departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his/her identity, meaning that the individual must provide his/her full name, current address, and date and place of birth. The individual must sign the request, and the individual's signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, an individual may obtain forms for this purpose from the Chief Privacy Officer and Chief Freedom of Information Act Officer, <http://www.dhs.gov/foia> or 1-866-431-0486. In addition, the individual should:

- Explain why the individual believes the Department would have information on him/her;
- Identify which component(s) of the Department the individual believes may have the information about him/her;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records.

If an individual's request is seeking records pertaining to another living individual, the first individual must include, in accordance with 6 CFR part 5.21, a statement from the second individual certifying his/her agreement

for the first individual to access his/her records. Without the above information, the component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

CONTESTING RECORD PROCEDURES:

For records covered by the Privacy Act or covered JRA records, see "Record Access Procedures" above, and 6 CFR part 5.

NOTIFICATION PROCEDURES:

See "Record Access Procedures."

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.
