

FEDERAL ENERGY REGULATORY COMMISSION
WASHINGTON, D.C. 20426

OFFICE OF ELECTRIC RELIABILITY

North American Electric Reliability Corporation
Docket No. RD21-4-000

April 07, 2021

North American Electric Reliability Corporation
1325 G Street N.W., Suite 600
Washington, D.C. 20005

Attention: Lauren A. Perotti, Senior Counsel
North American Electric Reliability Corporation

Reference: Petition of the North American Electric Reliability Corporation
for Approval of Proposed Reliability Standard FAC-008-5

Dear Ms. Perotti:

On February 19, 2021, the North American Electric Reliability Corporation (NERC) filed a petition seeking approval of proposed Reliability Standard FAC-008-5 (Facility Ratings). NERC states that proposed Reliability Standard FAC-008-5 would retire Requirement R7 of the currently-effective Reliability Standard FAC-008-3. NERC maintains that in Order No. 873, the Commission concluded that the retirement of Requirement R7 from the current-version of the Reliability Standard would not result in a reliability gap.¹

NERC's filed petition was noticed on February 19, 2021, with interventions, comments, and protests due on or before March 22, 2021. No interventions, comments, or protest were filed.

NERC's uncontested filing is hereby approved pursuant to the relevant authority delegated to the Director, Office of Electric Reliability under 18 C.F.R. § 375.303 (2020),

¹ *Electric Reliability Organization Proposal to Retire Requirements in Reliability Standards Under the NERC Standards Efficiency Review*, Order No. 873, 172 FERC ¶ 61,225, at PP 37-38 (2020). While indicating that it would be appropriate to retire Requirement R7, Order No. 873 remanded proposed Reliability Standard FAC-008-4 because the Commission disapproved of the proposed retirement of Requirement R8. *Id.* PP 37, 39-40.

effective as of the date of this order.

This action shall not be construed as approving any other application, including proposed revisions of Electric Reliability Organization or Regional Entity rules or procedures pursuant to 18 C.F.R. § 375.303(a)(2)(i). Such action shall not be deemed as recognition of any claimed right or obligation associated therewith and such action is without prejudice to any findings or orders that have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against the Electric Reliability Organization or any Regional Entity.

This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order, pursuant to 18 C.F.R. § 385.713 (2020).

Sincerely

Andrew Dodge, Director
Office of Electric Reliability
