<b>TOTAL CAPITAL AND O&amp;M COST (rounded)<sup>g</sup></b>				
<b>GRAND TOTAL (rounded)<sup>g</sup></b>				

**Assumptions:**

<sup>a</sup> There are 78 existing EAF steelmaking facilities and we expect that there will be an average of 1.6 new facilities per year assume that each respondent will have to familiarize with the regulatory requirements each year.

<sup>b</sup> This ICR uses the following labor rates: \$148.45 for managerial labor, \$121.46 for technical labor, and \$60.23 for clerical labor. Source: Bureau of Labor Statistics, March 2020. The rates have been increased by 110 percent to account for overhead.

<sup>c</sup> All plants have conducted performance tests during the implementation period of the rule.

<sup>d</sup> After full implementation, existing facilities are not expected to experience any burden from these activities and 1.6 net hours per worker over the 3-year period.

<sup>e</sup> Sources are required to include in their semiannual reports the number of mercury switches removed or the weight of mercury removed, the estimated number of vehicles processed, an estimate of the percent of mercury switches recovered, and a certification that the facility meets the requirements in §63.10(e). In addition, all sources must submit semiannual reports if they are subject to a site-specific plan for mercury. For start-up, shutdown, and malfunction, these semi-annual reports are only required if a malfunction occurred during the reporting period. This ICR assumes that sources that required a report.

<sup>f</sup> Assumed that each facility will update records weekly. The only transmission is the semi-annual report and the annual report.

<sup>g</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.

<b>TOTAL ANNUAL BURDEN AND COST (rounded)<sup>e</sup></b>				

<sup>a</sup> There are 78 existing EPA permitting facilities and we expect that there will be an average of 16 new facilities per year.

<sup>b</sup> This ICR uses the following average hourly labor rates: \$68.37 for managerial (GS-13, Step 5, \$42.73 × 1.6), \$50.72 for professional (GS-11, Step 5, \$31.70 × 1.6), \$27.46 (GS-6, Step 3, \$17.16 × 1.6) for clerical. These rates are from the Office of Personnel Management (OPM) “Cost of Pay” survey.

<sup>c</sup> After full implementation, the agency is not expected to experience any burden from these activities because existing notifications of applicability or Notifications of compliance status. 1.6 new facilities per year are expected to become subject to these activities.

<sup>d</sup> This ICR assumes each source had one six-month period during each year that required a report.

<sup>e</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
