

Pesticide Submission Portal (PSP) Electronic Confidential Statement of Formula (eCSF) Screen Captures

May 7, 2021

Anticipated Benefits

- ▶ Complete system of electronic generation, submission, review, and storage of structured content
 - ▶ Electronic Confidential Statement of Formula Builder (eCSF)
- ▶ Benefits:
 - ▶ Industry facing builders perform extensive data validation prior to submission through PSP
 - ▶ Significant time savings to registrants after initial file creation
 - ▶ Reduces burden on EPA staff during 21-day screening and full reviews
 - ▶ Provides targeted and customized suite of tools for reviews
 - ▶ Provides data in an easily storable and searchable format

PSP Portal Screen

The screenshot displays the Pesticide Submission Portal interface. At the top, the header includes the portal logo, the text "Pesticide Submission Portal" with a "Help" dropdown, and the user information "John Doe, CDX TESTING COMPANY (Builder Pilot Registrant)".

The main content area is titled "Pesticide Submission Portal" and contains a welcome message: "Welcome to the Office of Pesticide Programs Pesticide Submission Portal. Use the step chart below to create new submissions, respond to data call ins, form consortiums, or utilize pre-submission tools (e.g. form builders and root MRID generation). The View Recent Packages table allows quick access to your most recent submissions."

The interface is divided into two main columns. The left column, titled "Submissions and Tools", features a sidebar with navigation items: "Registration Actions", "Registration Review", "Reregistration", and "Pre-Submission Tools". The "Pre-Submission Tools" item is highlighted with a red box. To the right of this sidebar, under the heading "See the listed tools below", there are two tool options: "Generate Root MRIDs" and "Form Builders". The "Form Builders" option is also highlighted with a red box. Below these options are two buttons: "Create eCSF" (highlighted with a red box) and "Create Label & Use Index".

The right column is titled "PSP Alerts" and is currently empty.

At the bottom of the main content area, there is a section titled "View Recent Packages" with a "Collapse" button. Below this is a table with the following columns: "Package ID", "Package Name", "Modification Date", and "Status".

The footer of the page contains the version information "PSP v2.3" and "Release Notes" on the left, and "Provide Feedback" and "CDX Links" on the right.

 Drop a file to attach, or [browse](#).

Begin New eCSF Form

Click the 'Create New eCSF Form' button to begin a new electronic Confidential Statement of Formula XML file.

Paperwork Reduction Act Notice

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2070-0066; EPA ICR No. 0277.20). Responses to this collection of information are mandatory for certain persons, as specified at 40 CFR 152. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to average 1 hour per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Preliminary Questions Screen

The slide features a white background with a decorative graphic on the right side. This graphic consists of several overlapping, semi-transparent green triangles and polygons in various shades of green, creating a layered, abstract effect. The text 'Preliminary Questions Screen' is centered on the left side of the slide in a green, sans-serif font.

Components

List each component as introduced into the formulation. For each identifiable ingredient present in your formulation, provide the Chemical Name, Trade Name(s), Registration Numbers, and Chemical Abstracts Registry Number (CASRN), as applicable. If a component is obtained from multiple sources, indicate the 'Primary Site/Supplier' that will display on the rendered Form 8570-4 and then link each alternate source (Component Supplier) that will display on the Form 8570-4 Addendum pages.
