

SUPPLEMENTARY INFORMATION: Section 2306(f) of title 38, United States Code, authorizes VA's National Cemetery Administration to furnish a casket or urn for interment in a VA national cemetery or a VA-funded state or tribal veterans' cemetery of the unclaimed remains of veterans for whom VA cannot identify a next of kin, and determines that sufficient financial resources for the furnishing of a casket or urn for burial are not available. VA established regulations to administer this authority as a reimbursement benefit in 38 CFR 38.628.

In accordance with the regulation, reimbursement for a claim received in any CY will not exceed the average cost of a 20-gauge metal casket or a durable plastic urn during the fiscal year (FY) preceding the CY of the claim, as determined by VA.

Average costs are based on market price analysis and previous year actual reimbursements for 20-gauge metal caskets, designed to contain human remains, with a gasketed seal, and external rails or handles. The same analysis is completed for durable plastic urns, designed to contain human remains, which include a secure closure to contain the cremated remains.

Using this approach, in FY 2021, the average costs were determined to be \$1,362.00 for caskets and \$120.00 for urns. Accordingly, the maximum reimbursement rates payable for qualifying interments occurring during CY 2022 are \$1,362.00 for caskets and \$120.00 for urns.

Title: Application for Extended Care Services, VA Form 10-10EC.

OMB Control Number: 2900-0629.

Type of Review: Reinstatement of a previously approved collection.

Abstract: Title 38 U.S.C. Chapter 17 authorizes VA to provide hospital care, medical services, domiciliary care, and nursing home care to eligible Veterans. Title 38 U.S.C. 1705 requires VA to design, establish and operate a system of annual patient enrollment in accordance with a series of stipulated priorities. A consequence of this is that many groups of Veterans who are in a lower priority group (WWI Veterans, Veterans with disabilities rated as 0% service-connected seeking treatment for other than their service-connected conditions, Veterans exposed to a toxic substance, radiation, or environmental hazard and nonservice-connected Veterans) may request that they be allowed to be income tested in order to gain a higher priority. Title 38 U.S.C. 1722 establishes eligibility assessment procedures for cost-free VA medical care, based on income levels, which will determine whether nonservice-connected and 0% service-connected non-compensable Veterans are able to defray the necessary expenses of care for nonservice-connected conditions. Title 38 U.S.C. 1722A establishes the eligibility assessment procedures, based on income levels, for determining Veterans' eligibility for cost-free medications and Title 38 U.S.C. 1710B defines the procedures for establishing eligibility for cost-free Extended Care benefits. Title 38 U.S.C § 1729 authorizes VA to recover from Veterans' health insurance carriers the cost of care furnished for their nonservice-connected conditions.

VA Form 10-10EC, Application for Extended Care Services, is used to collect financial information necessary to determine a Veteran's copayment obligation for extended care services, also known as long term care (LTC).

Affected Public: Individuals or households.

Estimated Annual Burden: 3,000 hours.

Estimated Average Burden per Respondent: 90 minutes.

Frequency of Response: Once annually.

Estimated Number of Respondents: 2,000.

By direction of the Secretary.

Maribel Aponte,

VA PRA Clearance Officer, Office of Enterprise and Integration/Data Governance Analytics, Department of Veterans Affairs.
