INTRODUCTION: [Introduce yoursel		operator.	Rephrase in your own	words.]			
possible. The info who willfully disclo conducted in acco applicable Federa	We are collecting information on practices used to produce spring wheat and need your help to make the information as accurate as possible. The information you provide will be used for statistical purposes only. Your responses will be kept confidential and any person who willfully discloses ANY identifiable information about you or your operation is subject to a jail term, a fine, or both. This survey is conducted in accordance with the Confidential Information Protection provisions of Title V, subtitle A, Public Law 107-347 and other applicable Federal laws. For more information on how we protect your information please visit: https://www.nass.usda.gov/confidentiality . Response to this survey is voluntary . We encourage you to refer to your farm records during the interview.						
According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0535-0218. The time required to complete this information collection is estimated to average 50 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Sources of Information	How often was to information used 1 - Always (1000) 2 - Often (51% of 3 - Sometimes (4 - Never (0%)) 99 Don't Know	d? %) or more)	Which of these sources was this operation's PRIMARY source of pest management decisions? Select one. 1 = Primary 3 = Not Primary
a. Pesticide Product Labels	99 DOITE KITOW		
b. University and/or Agricultural Cooperative Extension Resources/Recommendations			
c. Non-University literature, such as magazines or newspapers			
d. Grower/Trade Groups			
e. Pesticide Sales Representatives and/or Farm Supply Distributors			
Crop Consultants Paid for by the Operation			
a. Other Grower(s)			
b. Non-University Decision Tools			
c. Weather Forecasting Tools			
d. Other, Specify:			
27. (If 26b, column 1 equals 1, 2, 3) Which of the followir Cooperative Extension were most often used as sources University and/or Agricultural Cooperative Extension	of pest managen	How often was used? 1- Always (100 2 - Often (51%	s this source of information 0%) 6 or more) 5 (50% or less)
a Formal presentations (a.g. appual moetings educe	tional trainings)	33 DOITERIN	OVV
a. Formal presentations (e.g., annual meetings, educab. Field days/ demonstration workshops	uonai ii aii iii iys)		
c. Farm visits and/or one-on-one consultation d. Email lists			
e. Newsletters f. Crop and/or Pest Protection Handbook			
g. Other publications (e.g. Fact sheets)			

28. For the selected field, how often were the following practices used during the season to manage herbicide, fungicide and insecticide resistance in 2019?

		(Only complete if operation uses herbicides)	(Only complete if operation uses fungicides)	(Only complete if operation uses insecticides)	
	Practices to Manage Resistance for Herbicide, Fungicide and Insecticide	How often was each practice used on this field to manage herbicide resistance?	How often was each practice used on this field to manage fungicide resistance?	How often was each practice used on this field to manage insecticide resistance?	
		1 Always (100%) 2 Often (51% or more) 3 Sometimes (50% or less) 4 Never (0%) 99. Don't Know	1 Always (100%) 2 Often (51% or more) 3 Sometimes (50% or less) 4 Never (0%) 99. Don't Know	1 Always (100%) 2 Often (51% or more) 3 Sometimes (50% or less) 4 Never (0%) 99. Don't Know	
a.	Field mapping weeds and/or keeping records of field history and pesticide use to assist pesticide decisions				
b.	Field Management/Sanitation Practices:				
	i. For weed control (e.g., crop rotation, tillage, planting cover crops, managing field borders, preventing field-to-field and within field movement of weed seed)				
	ii. For disease control (e.g., removing or incorporating field residue to reduce potential disease infestations, managing field borders)				
	iii. For insect control (e.g., removing or incorporating field residue to reduce potential insect infestations, managing field borders)				
c.	Planting insect-resistant and/or disease- resistant varieties of wheat				
d.	Pre-harvest and/or post-harvest control of weeds and/or disease to reduce the return of weed seeds and/or seed-borne diseases				
e.	Use of pest diagnostic tools [e.g., Integrated Pest Management (IPM) treatment thresholds; predictive weather models (e.g., degree day models); pest forecasting systems, and/or assistance from diagnostic networks]				
e.	Pesticide Mode of Action (MOA) rotation				
f.	Pesticide Mode of Action (MOA) combination (i.e., tank mix or pre-mix product)				

^{29.} In an effort to reduce off-target impacts to plants, pollinators, and/or beneficial insects, did this operation communicate with or consult any of the following sources in 2019? Check all that apply.

 □ a. Neighboring crop producers □ b. Nearby beekeepers □ c. A local expert, such as an Agricultural Cooperative Extension agent □ d. State Managed Pollinator Protection Plans, or MP3s (MP3s are state-developed efforts that intend to reduce pesticide exposure through timely communication and coordination among beekeepers, growers, pesticide applicators, and landowners) 								
e. Driftwatch (Driftwatch is a voluntary communication tool that enables crop producers, beekeepers, and pesticide applicators to work together to protect crops and apiaries through the use of mapping programs.)								
f. Other communication tool(s), specify:g. Other, specify:								
30. Are the spraying practices for <i>other fields</i> on this operation similar to the spraying pr □ a. Yes □ b. No − Please explain the difference: □ c. Don't Know 43. Which of the following auditing systems, if any, did this operation participate in in 20 □ a. GLOBALG.A.P. □ b. Safe Quality Food (<i>SQF</i>) Program □ c. Other, specify: □								
□ d. This operation did not participate in an auditing system□ e. Don't know
