

VEGETABLE CHEMICAL USE SURVEY

RESPONDENT BOOKLET

20XX

National
Agricultural
Statistics
Service

Dear Producer,

Thank you for participating in the 20XX Vegetable Chemical Usage Survey. This survey allows USDA's National Agricultural Statistics Service (NASS) to collect accurate information on pesticide data from U.S. vegetable growers. With numerous business decisions and policies relying on chemical usage data, it is more critical than ever that current, actual use data are available to all decision-makers in the vegetable industry.

We collect all responses to this survey in person. During the interview, our representative will ask you several detailed questions about the types of pesticides you use on your crops. To make the interview process go more quickly, please have your spray records available. If you used a commercial chemical company, please make sure those records are accessible.

This booklet will help you and the enumerator find and record the correct pesticide products. The booklet lists registered label names of products along with their Environmental Protection Agency (EPA) registration number. If you do not find the correct product listed in this booklet, record where the product was purchased or as much information about the product as possible.

Your participation is important. By responding to this survey, you help ensure that decisions impacting the production practices and well-being of farms are based on accurate, timely information. You also represent and give voice to thousands of farmers like yourself across the nation.

Thank you for your time and for your investment in the future of U.S. agriculture.

Sincerely,

Joseph L. Parsons
Chair, Agricultural Statistics Board
National Agricultural Statistics Service
U.S. Department of Agriculture

Enclosures

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0535-0218. The time required to complete this information collection is estimated to average 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Common Conversions for Liquid and Dry Measurements

1 Pound	equals	16 Ounces
1 Pound	equals	0.45 Kilograms
1 Kilogram	equals	1,000 Grams
1 Kilogram	equals	2.2046 Pounds
1 Ounce	equals	28.47 Grams
1 Ounce	equals	0.0625 Pounds
1 Gallon	equals	4 Quarts
1 Gallon	equals	3.785 Liters
1 Gallon	equals	8 Pints
1 Gallon	equals	128 Ounces
1 Quart	equals	2 Pints
