

Justification for Nonsubstantive Change

IC 0579-0335

National Management Information System (Wildlife Service)

APHIS accidentally posted two versions of WS Form 37 to the 0579-0335 reinstatement ICR. The correct version is April 2018. It is the same form as the Oct 2017 version except it allows for continuation on the reverse side.

The Individuals IC list included the correct form. The April 2018 version is now added to the Private Sector and State, Local, Tribal Governments IC lists.

This request also includes a form title change. The form name used in the IC lists was Migratory Bird Damage Project Report and mistakenly derived from the activity title in the supporting statement. The form's actual title is USFWS Migratory Bird Permit Application or Review.
