

Justification for Nonsubstantive Change 2  
IC 0579-0335  
National Management Information System (Wildlife Service)

August 23, 2021

APHIS made two minor revisions to WS Form 12A (Oct 2017).

- a. Item 2, Status – A third checkbox “National Wildlife Research Center” was added. This field is completed by U.S. Federal agencies only. The change has no impact on the information collection request.
- b. Item 16 – “There are additional components...” was changed to “There are additional methods...” This change aligns the form with the others in the WS Form 12-series. The change has no impact on the information collection request.
