About the Vehicle Inventory and Use Survey

The Vehicle Inventory and Use Survey (VIUS) is sponsored by the Bureau of Transportation Statistics, the Federal Highway Administration, and the U.S. Department of Energy, and is conducted by the U.S. Census Bureau.

VIUS provides data on the physical and operational characteristics of the nation's truck population. Its primary goal is to produce national and state-level estimates of the total number of trucks and truck miles.

Prior to 1997, VIUS was known as the Truck Inventory and Use Survey (TIUS). It was renamed to account for areas of future expansion, including the addition of automobiles and buses.
