

Outbreak Summary Report Form
Integrated Viral Hepatitis Surveillance and Prevention Funding for Health Departments

CDC Use Only

| | |
|--|--|
| CDC unique identifier <i>(created for initial report)</i> | |
|--|--|

Reporting Agency

| | |
|--|--|
| Reporting jurisdiction | |
| Contact name <i>(person completing form)</i> | |
| Contact phone number <i>(xxx-xxx-xxxx)</i> | |
| Contact email address | |
| Additional contact name(s) <i>(if applicable)</i> | |
| Additional contact phone number(s) <i>(xxx-xxx-xxxx)</i> | |
| Additional contact email address(es) | |
| Date of report submission <i>(MM/DD/YYYY)</i> | |
| Reporting Period | <i>Select one</i> <input type="checkbox"/> Year 1 <input type="checkbox"/> Year 2 <input type="checkbox"/> Year 3 <input type="checkbox"/> Year 4 <input type="checkbox"/> Year 5 |

- *By the end of each Reporting Period, submit an Outbreak Summary Report Form for each outbreak that was reported via the Initial Outbreak Report Form that year.*
 - o *If an outbreak is closed prior to the end of the Reporting Period, the Outbreak Summary Report Form may be submitted at the time of close out rather than waiting until the end of the Reporting Period.*
 - o *If an outbreak is ongoing at the end of the Reporting Period, an interim Outbreak Summary Report Form should be submitted based on data available at the end of the year Reporting Period. An updated, final Outbreak Summary Report Form should be submitted once the outbreak is closed.*
- **Complete this form with available information as of the date of report submission.**

Outbreak

| | |
|------------------------|--|
| Outbreak status | <i>Select one</i> <input type="checkbox"/> Outbreak, over <input type="checkbox"/> Outbreak, ongoing <input type="checkbox"/> Not an outbreak |
|------------------------|--|

NOTE: Stop here if "Not an outbreak" selected

Outbreak Summary Report Form

Integrated Viral Hepatitis Surveillance and Prevention Funding for Health Departments

| | |
|---|--|
| Jurisdiction-assigned outbreak ID¹ | |
| Date outbreak was confirmed (MM/DD/YYYY) | |
| Date outbreak was closed, if applicable (MM/DD/YYYY) | |
| Outbreak type <i>(select all that apply)</i> | <input type="checkbox"/> Hepatitis A, community/person-to-person <input type="checkbox"/> Hepatitis A, foodborne — associated with an infected food handler <input type="checkbox"/> Hepatitis A, foodborne — associated with contaminated food <input type="checkbox"/> Hepatitis A, foodborne — undetermined whether associated with an infected food handler or contaminated food <input type="checkbox"/> Hepatitis A, waterborne <input type="checkbox"/> Hepatitis A, source not identified <input type="checkbox"/> Hepatitis B, community/person-to-person <input type="checkbox"/> Hepatitis B, healthcare-associated <input type="checkbox"/> Hepatitis B, source not identified <input type="checkbox"/> Hepatitis C, community/person-to-person <input type="checkbox"/> Hepatitis C, healthcare-associated <input type="checkbox"/> Hepatitis C, source not identified <input type="checkbox"/> Other, specify: |

¹ A jurisdiction-assigned unique name or identifier for an identified outbreak. For jurisdictions reporting via HL7, this is PHIN variable code=INV151 and data element identifier=77981-9.

Geographic Location

| | |
|---|--|
| Was this a multistate outbreak? | <i>Select one</i> <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown |
| Specify the geographic area(s) in your jurisdiction affected by the outbreak <i>(i.e., areas where outbreak-associated cases are residents)</i> | County name(s): City name(s): |

Outbreak Case Characteristics

| | |
|--|--|
| Number of outbreak-associated cases² | |
| Earliest symptom onset date³ (MM/DD/YYYY) | |
| Most recent symptom onset date³ (MM/DD/YYYY) | |

² Outbreak case definitions are developed by the outbreak investigation team for each outbreak and specify case definition criteria in person, place, and time for cases that are included in the outbreak. Cases meeting the outbreak case definition often also meet the surveillance case definition; however, there are many exceptions.

³ If the symptom onset date is unknown, then the date that the patient first tested positive (i.e., specimen collection date) for the hepatitis virus being reported on this form can be used as a proxy for symptom onset date.

Outbreak Summary Report Form

Integrated Viral Hepatitis Surveillance and Prevention Funding for Health Departments

| | | Number of cases for which information is available |
|---------------------------|--------------------------------------|--|
| Median age (years) | | |
| Age range (years) | Lower age limit: Upper age limit: | |

| | |
|--|--|
| Gender (number) <i>Total should equal number of outbreak-associated cases</i> | Female: Male: Other gender identity: Unknown/missing: |
| Race (number) <i>Check all that apply</i> | American Indian/Alaska Native: Asian: Black/African American: Native Hawaiian/Other Pacific Islander: White: Unknown/missing: |
| Ethnicity (number) <i>Total should equal number of outbreak-associated cases</i> | Hispanic/Latino: Not Hispanic/Latino: Unknown/missing: |

| | Number | Number of cases for which information is available |
|-------------------------------|--------|--|
| Patients with symptoms | | |
| Patients with jaundice | | |

| | Number | Number of cases for which information is available |
|--|--------|--|
| Patients hospitalized⁴ | | |
| Patients deceased⁵ | | |

⁴ Patients should be considered hospitalized if their hospitalization was due to the viral hepatitis infection that resulted from this outbreak. For reporting purposes, 'hospitalized' includes patients having evidence of an inpatient hospital admission, evidence of an admission order from an emergency department physician for those patients who left against medical advice, or evidence of >24 hours observation at a medical facility. Patients who were evaluated in an outpatient clinic, those discharged to home from the emergency department with a duration of stay ≤24 hours, or whose hospitalization status was unknown should not be considered hospitalized for the purposes of reporting on this form.

⁵ For reporting purposes, patients should be reported as deceased if their case was reported as outbreak-associated and their death was due to the viral hepatitis infection that resulted from the outbreak or to complications from their outbreak-associated viral hepatitis illness.

Outbreak Summary Report Form

Healthcare-associated hepatitis B and C outbreaks

NOTE: Complete the following two questions for healthcare-associated hepatitis B and C outbreaks only. If the outbreak being reported on this form is not a healthcare-associated hepatitis B or C outbreak, enter "N/A."

| | |
|--|--|
| Estimated number of potentially exposed individuals | |
| Number of potentially exposed individuals screened to date | |

Outbreak Characteristics

| | |
|--|--|
| Specify outbreak RISK FACTORS identified by time of report (select all that apply) | <ul style="list-style-type: none"><input type="checkbox"/> Drug use, injection<input type="checkbox"/> Drug use, non-injection<input type="checkbox"/> Homelessness or unstable housing<input type="checkbox"/> Incarceration<input type="checkbox"/> Sexual activity (MSM, multiple sex partners, STDs)<input type="checkbox"/> Contact with viral hepatitis (household)<input type="checkbox"/> Contact with viral hepatitis (healthcare worker)<input type="checkbox"/> Contact with viral hepatitis (other), specify⁶: <input type="checkbox"/> Contaminated pharmaceutical product, specify: <input type="checkbox"/> Healthcare exposure (healthcare worker, employee)<input type="checkbox"/> Healthcare exposure (patient)<input type="checkbox"/> Hemodialysis<input type="checkbox"/> Tissue or organ transplantation<input type="checkbox"/> Tattoo receipt<input type="checkbox"/> International travel, specify: <input type="checkbox"/> Other, specify: <input type="checkbox"/> Unknown |
|--|--|

⁶ e.g., drug use partner, sexual partner

Outbreak Summary Report Form
