

Non-material/Non-substantive Change Request Justification - 20210827

JUSTIFICATION: The National Center for Environmental Health (NCEH) requests that the maximum number of respondents for the Awardee Lead Profile Assessment be increased from 61 respondents to 75 respondents. A new NOFO will begin on September 30, 2021, entitled “Childhood Lead Poisoning Prevention and Surveillance of Blood Lead Levels in Children” (CDC-RFA-EH21-2102; Attachment 3c). The National Center for Environmental Health (NCEH) received more funding than anticipated for this funding announcement and is able to provide more funding to more than 61 recipients.

For this non-material/non-substantive change request, we are only requesting to change the maximum number of responses and reassess the burden. There is no change to the survey instruments or the method of deployment.

Type of Respondent	Form Name	No. of Respondents	No. of Responses per Respondent	Average Burden per Response (in hours)	Total Burden Hours
State and Local Governments (or their bona fide fiscal agents)	ALPA Web Survey	74 (+14 respondents)	1	47/60	58 (+11 hours)
	ALPA Email Survey	1	1	47/60	1
Total					59 (+11 hours)
