

Attachment 4
ALS Case Validation Questions (screenshots)

The screenshot displays the ATSDR Agency for Toxic Substances & Disease Registry website. The main heading is "National Amyotrophic Lateral Sclerosis (ALS) Registry". A navigation menu on the left lists various resources like "Registry Resources", "Research Notification", and "Bioregistry". The main content area features a "Join the Registry" button and a "Login" link. Below this, a text prompt asks users to see if they are eligible for the registry. A "Persons with ALS (PALS) Registration" section contains a question: "Did a health professional ever tell you that you might have ALS or Lou Gehrig's disease?". The response options are radio buttons for "Yes" and "No". There are "Next" and "Cancel" buttons at the bottom of the question box. A small box on the right indicates the form is approved with OMB No. 0923-0041. A footer section provides contact information for the Agency for Toxic Substances and Disease Registry, including a phone number (800-232-4636) and a TTY number (888-232-6348). It also includes a "Contact CDC-INFO" link and a "Burden Estimate" section explaining the 2-minute average public reporting burden. The footer contains links for "ATSDR Home", "Privacy Policy", "Disclaimer", "Accessibility", "e-Government", "CDC FOIA", and "Contact Us". The USA.gov logo is visible in the bottom right corner.
