

Head Start Family Focus Group Protocol

Before we begin, I would like to note that all information we collect from you and all others today and in the future will be kept private. Your responses today will be used to help better understand how Head Start programs, elementary schools, and community organizations are supporting children and families as they transition into kindergarten. We estimate our conversation today to last approximately one hour and fifteen minutes. Additionally, federal law states that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this data collection is 0970-0XXX and the expiration date is XX/XX/XXXX. I can repeat that, if you'd like to keep it for reference.
