ONRR is especially interested in public comments addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of ONRR’s estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

Comments that you submit in response to this notice are a matter of public record. ONRR will include or summarize each comment in its request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Abstract: The Secretary of the United States Department of the Interior (“Secretary”) is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf. Laws pertaining to Federal and Indian mineral leases are posted at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm. Pursuant to the Federal Oil and Gas Royalty Management Act of 1982 (“FOGRMA”) and other laws, the Secretary’s responsibilities include maintaining a comprehensive inspection, collection, and fiscal and production accounting and auditing system that: (1) Accurately determines mineral royalties, interest, and other payments owed, (2) collects and accounts for such amounts in a timely manner, and (3) disburses the funds collected. *See* 30 U.S.C. 1701 and 1711. ONRR performs these mineral revenue management responsibilities for the Secretary. *See* Secretarial Order No. 3306.

(a) General Information: ONRR collects, audits, and disburses royalties, interest, and other payments owed by lessees on minerals produced from Federal and Indian lands. Such information is generally available within the records of the lessee of others involved in the development, transport, processing, purchase, or sale of such minerals. Specifically, companies submit financial information to ONRR on a monthly basis by submitting form ONRR–2014 (Report of Sales and Royalty Remittance for oil and gas reported in OMB Control Number 1012–0004), and form ONRR–4430 (Solid Minerals Production and Royalty Report reported in OMB Control Number 1012–

0010). These royalty reports result in accounts receivables and capture most of the mineral revenues that ONRR collects.

The basis for the data that a company submits on forms ONRR-2014 and ONRR-4430 is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling such minerals. The information that ONRR collects under this ICR includes data necessary to ensure that ONRR's accounts receivables are accurately based on the value of the mineral production, as reported to ONRR on forms ONRR-2014 and ONRR-4430.

(b) *Information Collections:* Every year, under the Chief Financial Officers Act of 1990 ("CFO Act"), the Office of Inspector General ("OIG") or its agent audits the accounts receivable portions of the Department of the Interior's financial statements, which includes accounts receivables based on ONRR forms ONRR-2014 and ONRR-4430. Accounts receivable confirmations are a common practice in the audit business. Due to a continuous increase in scrutiny of financial audits, a third-party confirmation of the validity of ONRR's financial records is necessary.

As part of CFO Act audits, the OIG or its agent selects a sample of accounts receivable items based on forms ONRR-2014 and ONRR-4430 and provides the sample items to ONRR. ONRR then identifies the company names and addresses for the sample items selected and creates accounts receivable confirmation letters. In order to meet the CFO Act's requirements, the letters must be on ONRR letterhead and the Deputy Director for ONRR, or his or her designee, must sign the letters. The letter requests third-party confirmation responses by a specified date on whether ONRR's accounts receivable records agree with royalty payor records for the following items: (1) Customer identification; (2) royalty invoice number; (3) payor assigned document number; (4) date of ONRR receipt; (5) original amount the payor reported; and (6) remaining balance due to ONRR. The OIG or its agent mails the letters to the payors, instructing them to respond directly to confirm the accuracy and validity of selected royalty receivable items and amounts. In turn, it is the responsibility of the payors to verify, research, and analyze the amounts and balances reported on their respective forms ONRR-2014 and ONRR-4430.
