## Instructions for Work Context Questionnaire

### Instructions

In this questionnaire you will be asked about working conditions. These questions are about the work setting and its possible hazards, the pace of work, and dealings with other people while on the job. As an occupation expert, first consider the different working conditions experienced by workers in the occupation. Then, with this information in mind, please answer each question as if you were performing work that is typical of the occupation.

Read each question carefully and look closely at answer choices after each question. Put an **X** through the number for the answer that best describes what workers experience in the occupation.

For example:

<p><b><u>How many hours</u> do workers work in a typical week in the occupation?</b></p> <p>Less than 40 hours                      40 hours                      More than 40 hours</p> <p>① ————— <del>②</del> ————— ③</p>
--

Mark your answer by putting an **X** through the number that represents your answer.  
Do not mark on the line between the numbers.
