Note: All interviews will involve one interviewer and one notetaker. The notetaker will take notes within the Word document, and notes will be transferred to a database for analysis. This document provides the questions for the interview, but not specified sections (e.g., boxes) to take notes in.

#### **Fall 2021 Interview Protocol**

We'll start by asking about activities conducted during the spring and summer of 2021, after your district knew it would be participating in the study. In this section, we'll discuss the work your district engaged in to identify the Multi-Tiered System of Supports for Reading (MTSS-R) Coach, ensure that your district has screening and progress monitoring data systems in place, and plan or prepare for implementation.

#### **Hiring or Selecting MTSS-R Coaches**

1.	and	st, we'd like to know how you selected the MTSS-R Coach to work in the Approach A l B schools. When joining the study, did you already know who the coaches would be Approach A and B, or did you need to search for candidates?

### Spring 2022, 2023, and 2024 Interview Protocol

Note: This form refers to the 2021–22 school year, though the years will be updated for each round, and the questions will be the same across years.

During this interview, we'll ask questions about costs related to your district's implementation of the Multi-Tiered System of Supports for Reading (MTSS-R) since we last spoke about the Enhanced Core Reading Instruction (ECRI) program, and the University of Minnesota/Consortium of Reading Excellence in Education (UMN/CORE) program. Our focus is on activities led by the central district office, as well as any supports that the central office provided to the schools implementing the program. In other words, the focus will be on activities conducted centrally, not in individual schools. These activities and resources include any support, monitoring, or resources that you or your district provided to schools implementing ECRI or UMN/CORE during the 2021–22 school year, but exclude any work you may have done to prepare for any plans for the subsequent school year. We'll ask the same questions for both ECRI and UMN/CORE, but we'd like to focus on just one at a time.
