Direct Program Support / State Payments on Behalf of the Local Education Agency (LEA)

**National Public Education Financial
Survey (NPEFS)
Reporting Instructions
FY 2021**

NATIONAL PUBLIC EDUCATION FINANCIAL SURVEY (NPEFS)

COMPLETING THE NPEFS SURVEY

To complete the NPEFS survey and ensure that the data are complete and accurate please review the instructions below.

1. Report finance data for all public schools

States should include finance data for all publicly funded schools and local education agencies (LEAs), including charter schools, education service agencies, and other special service LEAs. Revenues and expenditures for these schools and LEAs must be reported on NPEFS even if they are not classified in your state as “regular school districts” or “local education agencies.”

State education agency staff may need to contact other state agencies to alert them to the need to provide fiscal data for special schools and LEAs. It may be necessary to remove non-education costs such as medical and room and board costs, particularly in residential facilities.

Examples of special service schools and LEAs include:

- Schools for handicapped
- Juvenile custodial institutions
- Other special education state-established entities
- Schools for the deaf, blind, and mentally disabled
- Education service agencies
- Charter schools

Please note whether finance data for any special service schools or LEAs is missing in Section 7 comments. These comments will be published in the file documentation.

NOTE: missing finance data for any schools (including charter schools) or LEAs could potentially affect federal education funding derived from this data.

2. Report Revenue and Expenditures Only Once

“Double counting” of revenues and expenditures can occur when fiscal reports are submitted by overlapping political jurisdictions or when one LEA pays tuition to another to educate students who reside in the jurisdiction of the LEA that pays tuition.

Avoid double counting services purchased from another school district or educational services agency within the state (object 591). Internal transfers to another school district within the state for services rendered, such as instructional support, data processing, purchasing, nursing, and guidance, should be excluded from all functions to prevent double counting. These expenditures are double counted when object 591 is included in current expenditures, and the expenditures for services that were purchased are also reported and included in current expenditures.

3. Ensure comparability between current expenditures and average daily attendance.

States must reconcile the total count of students in attendance with the number of students in attendance in programs covered by Net Current Expenditures. This means that a state must be able to identify the number of students in attendance for each

of the programs included in Current Expenditures – and the expenditures for each program – in order to count the students in ADA. Any exclusions from ADA or finance data should be noted in the fiscal data plan and in the comments of the survey.

4. Rounding

Round all numbers to the nearest whole dollar before entering them on the survey. Any value of 0.5 and above should be rounded up, while any value below

0.5 should be rounded down. Examine one significant digit after the decimal point. For example, 1.50 would be treated as 2, while 1.49 would be treated as 1.

5. Flags for Missing, Not Applicable, and Zero data

Within the NPEFS web application, all cells are initially set to zero. When a revenue or expenditure has a reported value of zero, respondents should select the appropriate flag in the flag field drop-down box to identify the data item(s) as missing (M), not applicable (N), or true zero (Z).

- Missing – Revenue was received or an expenditure occurred, but the value of that transaction is missing;
- Not Applicable – Data item is not applicable for the state. State historically does not have an amount to report for the data item; or
- True Zero – No revenue was received or expenditure made for the fiscal year, which makes the item a true zero amount.

For missing data, please indicate in the comment box (on the web collection site) when the data will become available, or if data for this item are included in another reported item, or any other information that explains why the data are missing.

6. Check and respond to all items on the Final Data Check prior to submitting NPEFS data to NCES.

Must Fix: The most common errors made in completing the survey are mistakes in adding up the subtotals to determine the correct totals. The web form has calculated totals for each subtotal and total field. A message will appear in a dialogue box if an addition error is made. These errors are designated in the web editing system as “must fix.” You will not be able to submit your NPEFS data until you have made corrections to all “must fix” errors.

Critical Errors: Data issues with a red square and a checkbox to the left of the error message are critical errors that must be resolved before your data is submitted to NCES. Resolve all critical errors by reviewing the accuracy of NPEFS amounts related to the critical errors. If the amounts are correct, provide an explanation within the comment box of the appropriate section for the data anomaly. After providing an explanation, check the box within the red square to indicate that the critical error has been resolved (a check mark should appear within the box).

Non-Critical Errors: Large differences may indicate errors such as “double counting” (e.g., placing an item under

NATIONAL PUBLIC EDUCATION FINANCIAL SURVEY (NPEFS)

“Support Services” when it has already been included in “Instruction”) or failure to include an expenditure object (e.g. salaries) in a total. Dramatic changes in revenues or expenditures may mean that some LEAs have been erroneously included or excluded, or that a change to a states chart of accounts has meant reclassifying some revenue or expenditure items. Dramatic changes in average daily attendance may indicate double counting of students, or missing schools or school districts from the attendance calculation. For each non-critical error, verify the accuracy of the data and provide an explanation of the anomaly in the comments when possible.

7. Make certain that the survey is signed or an electronic confirmation is supplied by the “authorized state official.”

NCES requests that the authorizer be a fiscal official at the highest level in the state education agency (SEA), such as Assistant Commissioner for Finance or Assistant Commissioner for Research. The individual designated as the “authorized state official” must be approved, in writing, by the Chief State School Officer (CSSO).

In the NPEFS web application or the designated boxes on the cover sheet of the paper form, provide the contact information for the person preparing the report. Also, provide the name, title, and signature of the “authorized state official” that must certify the accuracy of the fiscal submission. The authorizing official will need to provide authorization for both the current year submission and for the prior year reported data if revised data is submitted. For further instructions on how to electronically authorize NPEFS please review the [NPEFS Web Instructions](#).

8. Record keeping requirements

Retain documentation of survey preparation. Each state education agency must retain copies of completed fiscal survey forms and all documentation on the preparation of SPPE data for at least three years (as required by the U.S. Department of Education’s regulations at [34 CFR 80.42](#)). This documentation includes all finance and program records, supporting documents (such as worksheets and spreadsheets), statistical records, SEA publications, internal guidelines and control document, and any other records that are pertinent to program regulations or grant agreements.

However, penalties and interest are reported under non-property tax (R1B) below. DO NOT report property taxes that go to

dependent school districts here; report them in NPEFS item code (R1C) Other Local Government Units Property Tax. State education agencies should instruct LEAs filing comprehensive annual financial reports (CAFRs) to include property taxes billed within the school year and collected within 60 days of the close of the school year.

R1B - Non-Property Tax (1120-1190). These taxes include sales and use taxes imposed upon the sale and consumption of goods and services; income taxes (1130) levied on individuals, corporations, and unincorporated businesses; penalties and interest (1140) on late and delinquent taxes; and “other taxes,” such as, revenue raised through licenses and permits. (NOTE: Tuition from LEAs outside the state should be reported in Other Revenue from Local Sources.)

EXPENDITURES

SECTION 2

INSTRUCTION (1000).

Total current operation expenditures for activities dealing with the interaction of teachers and students in the classroom, home, or hospital for regular elementary and secondary education programs (prek-12), special education, vocational education, cocurricular activities and athletics. Expenditures for support for nonpublic school students, adult/continuing education, community/junior colleges, and community service programs, should be reported in Section 6, Other Direct Costs.

Instruction Salaries (E11) and Benefits (E12). Instructional staff includes regular and part-time teachers, teachers' aides, homebound teachers, hospital-based teachers, substitute teachers (including permanent substitute teachers, teachers on sabbatical leave, and classroom assistants of any type who assist in the instructional process, including clerks and graders. Report supplemental amounts for additional duties such as coaching or supervising extracurricular activities, bus supervision, and summer school teaching. DO NOT include salaries or other expenditures for non-teaching staff that perform duties to which teachers may be assigned but that do not include instruction such as detention or lunch supervision.

Tuition and voucher payments outside the state, to private schools, individuals, and other (E14). Include amounts for tuition expenditures when the tuition is paid by an individual to attend elementary and secondary school (grades pre-K through 12) in an LEA other than the one in which he or she resides. Include tuition to other LEAs outside the State and tuition to private schools (in-state and out-of-state) for students who are funded by and/or the responsibility of a public LEA or the SEA, and other tuition such as state schools for the blind.

Tuition and voucher payments to other LEAs and charter schools within the state (E15). This category consists ONLY of tuition paid from one LEA to another within the same state for educating students (e.g. an LEA pays tuition to another LEA to provide a student a special program that is not available in the LEA where the student resides). Include payments to charter schools in the state.

NATIONAL PUBLIC EDUCATION FINANCIAL SURVEY (NPEFS)

Include textbooks for public school children in Supplies (E16). Report base salaries paid to teachers and certified substitute teachers engaged in regular instruction (E11A), special education (E11B), vocational education (E11C), and other programs (E11D).

SECTION 3A – SUPPORT SERVICES (2000)

Students (2100). Report expenditures for administrative, guidance, health, and logistical support that enhance instruction. Include attendance, social work, student accounting, counseling, student appraisal, information, record maintenance, and placement services. Also include medical, dental, nursing, psychological, and speech services.

Instructional Support (2200). Include expenditures for supervision of instruction service improvements, curriculum development, instructional staff training, academic assessment, and media, library, and instruction-related technology services.

General Administration (2300). Expenditures for board of education and executive administration (office of the superintendent) services.

School Administration (2400). Expenditure for activities concerned with overall administrative responsibility for a school. Include activities performed by the principal and office of the principal staff.

SECTION 3B – SUPPORT SERVICES (2000)

Operation and Maintenance (2600). Include expenditures for buildings services (heating, electricity, air conditioning, property insurance), care and upkeep of grounds and equipment, vehicle operation and maintenance (other than student transportation vehicles), and security services.

Student Transportation (2700). Report expenditures for vehicle operation, monitoring riders, and vehicle servicing and maintenance. Student transportation purchased from another school district within the state (object 511) should be excluded to prevent double counting.

Other Support Services (2500 and 2900). Include business support expenditures for fiscal services (budgeting, receiving and disbursing funds, payroll, internal auditing, and accounting), purchasing, warehousing, supply distribution, printing, publishing, and duplicating services. Interest on current loans, repayable within one year of receiving the obligation, are classified as Fiscal Services – Receiving and Disbursing Funds Services (function 2510, object 835) and should be reported under Other Support Services - Other (E268).

Also include central support expenditures for planning, research and development, evaluation, information, management services, and expenditures for other support services not classified elsewhere in the 2000 series.

SECTION 4 – OPERATIONS OF NON- INSTRUCTIONAL SERVICES (3000)

Food Services (3100). Food Services operations are activities that provide food to students and staff in a school or LEA. Include expenditures for machinery and equipment such as ovens, dishwashers, and refrigerators.

Enterprise operations (3200). Include expenditure for business-like activities (such as a bookstore) where the costs are recouped largely with user charges. Some LEAs may conduct fee-for-service activities to support other LEAs, such as instructional support, food service, and transportation. Expenditures for these activities should not be reported as Enterprise operations, but rather under the appropriate function.

SECTION 5 – DIRECT PROGRAM SUPPORT

Direct Program Support is not a function itself but cuts across all functions as it refers to expenditures made by state education agencies for, or on behalf of, local education agencies. Expenditures should only be considered direct program support if they benefit a specific LEA and its operations or if the LEA would otherwise be responsible for payment. State payments which fall into the realm of SEA responsibilities should not be included as direct program support.

NOTE: Expenditures for Direct Program Support should have corresponding amounts included as revenue from state sources (3000).

State financial contributions to LEA employee retirement funds are an example of Direct Program Support. States that pay the employer's contribution to retirement funds often do so by transferring money directly from the state treasury to the state retirement fund for public employees. Because local school districts never actually receive these funds, LEAs do not include them in year-end financial audit reports to the SEA. State practices vary greatly in this area, and survey respondents must check with other state agencies to identify any expenditures for, or on behalf of, local education agencies.

NOTE: NCES would prefer that SEAs report Direct Program Support expenditures in the appropriate function(s) and object(s) rather than here.

If expenditures cannot be functionalized, the amounts may be included under textbooks (E4A), transportation (E4B), employee benefits (E4C), private school students (E4D), or other support for public school students (E4E). Two figures are requested for each category:

1. The sum of salaries, employee benefits, purchased services, supplies, and other current expenditures.
2. Property, including furniture, fixtures, and equipment. Property is a separate item because property is not a component of current expenditures.

The Direct Program Support section of the survey is ONLY provided as a means for

NATIONAL PUBLIC EDUCATION FINANCIAL SURVEY (NPEFS)

those states that cannot correctly report these expenditures within the appropriate, function-specific categories.

Expenditures reported in this section, with the exception of E4D, will be distributed to sections 2-4 as appropriate.

Current Expenditures (TE5). Current expenditures are comprised of expenditures for the day-to-day operation of schools and school districts for public elementary and secondary education:

1. Include expenditures for staff salaries and benefits, supplies, and purchased services; instruction and support services (e.g., pupil support, school administration, etc.) expenditures that directly support public elementary-secondary education. Exclude expenditures associated with repaying debts and capital outlays (e.g., purchases of land, school construction, and equipment); programs outside the scope of public prekindergarten through grade 12 education, such as community services and adult education; payments to private schools and payments to charter schools outside of the school district.
2. Current expenditures = Instruction expenditures (STE1) + Support Services expenditures (STE2T) + Non-Instructional expenditures (STE3) + Direct Program Support (STE4) (excludes aid to private school students and property expenditures).

SECTION 6 – NON-CURRENT EXPENDITURES

FACILITIES ACQUISITION & CONSTRUCTION SERVICES (4000)

Also, include the purchase of air rights, mineral rights, etc., if applicable. Construction expenditures should be reported under Non-Property (E61) expenditures; however, the purchase of existing structures should be reported here.

DIRECT COST PROGRAMS

E9A – Non-Public School Programs (Program #500).

Report expenditures for services for students attending schools established by agencies other than states, subdivisions of states, or the federal government which are usually supported primarily by funds other than public funds. These services typically consist of activities such as those involved in providing textbooks, instructional services, attendance and social work services, health services, and transportation services for nonpublic school students. Tuition payments to private schools should be reported in E14.

E9B - Adult/Continuing Education Programs (Program #600). Activities that develop knowledge and skills to meet the immediate and long-range educational objectives of adults who, having completed or interrupted formal schooling, have accepted adult roles and responsibilities. Adult basic education programs are included as well as career education. The activities may foster the development of fundamental learning skills, prepare students for postsecondary careers or education programs, upgrade occupational competence, prepare students for a new or different career, develop skills and appreciation for special interests, or enrich the aesthetic qualities of life.

Expenditures from Facilities Acquisition (4100-4900), Community Services (3300), Direct-Cost Programs, and Property (700). This total should include all expenditures for public elementary and secondary education in your state. To avoid double-counting, DO NOT INCLUDE Other Uses (5000).

SECTION 7

EXCLUSIONS FROM SPPE

Exclusions from Current Expenditures for State Per Pupil Expenditures (SPPE) provides a list of revenues and expenditures to be subtracted. All of the revenues from individuals have already been reported in the Local Revenues section of the survey and are automatically included in this category's subtotals. (These numbers will be visible in the Web form and the Crosswalk form.)

X12C and X12D – Title I Expenditures and Title I Carryover Expenditures. Report expenditures and carryover expenditures for Title I of the ESEA (as amended). Expenditures against Title I funds, all parts, that were appropriated for the fiscal year or the school year in operation during the fiscal year should be reported in item X12C. Federal law permits states to retain Title I allocations for up to 27 months in order to allow districts to spend the money at a later date. Expenditures against Title I funds which were made against funds that were appropriated for the prior fiscal year but remained available for obligation under the carryover provision in the Title I statute are called "carryover funds" and should be reported in item X12D. NCES excludes expenditures from current year and carryover funds for ALL Title I programs when calculating per pupil expenditures for allocation purposes. Although the survey does not provide a separate place for reporting Title I spending in the expenditure sections, these funds must be included in the appropriate expenditure categories throughout the survey.

X12E and X12F – Title V, Part A Expenditures and Title V, Part A Carryover Expenditures. Report expenditures and carryover funds for Part A of Title V of the ESEA (as amended). Title V, Part A allows for fund transferability. Only report expenditures and carryover exclusions from their initial allocations under Title V, Part A and do not include any expenditure of funds that were transferred under the transferability provisions. For states and outlying areas, we do not expect to see Title V, Part A expenditures reported.

NET CURRENT EXPENDITURES

Subtract Total Exclusions (TX12) from Current Expenditures (TE5). This is a computed field.

Defined as current expenditures less the following exclusions (local revenues and expenditures):

- tuition paid by individuals;
- transportation fees paid by individuals;
- food service revenues;
- district activity revenues;
- textbook revenues;

NATIONAL PUBLIC EDUCATION FINANCIAL SURVEY (NPEFS)

- summer school revenues;
- expenditures from funds received from Title I programs (including expenditures from carryover funds in prior year)
- expenditures for Title V, Part A programs

AVERAGE DAILY ATTENDANCE (ADA)

ADA is used as the denominator in calculating the State Per Pupil Expenditure (SPPE) used in Title I and other federal fund allocations. ADA must be reported as it is defined by either state law (A14A) or federal law (A14B).

ADA – State Law (A14A) - When state laws or regulations define ADA or provide methods for calculating ADA, those definitions and methods **must** be used to report ADA in the NPEFS Survey. Survey respondents should become familiar with the laws and regulations regarding ADA in their states – as well as with instructions or rulings on ADA by the attorneys general of their states. Federal law requires states to report ADA exactly as mandated by their laws and regulations even if state requirements differ from those of NCES regarding attendance for remote learning, summer school attendance, partial-day attendance, excused absences, and other issues.

States should ensure that attendance was collected for each day that the school was in session, whether the instruction was in-person, remote, hybrid, virtual synchronous, or asynchronous. States should also maintain appropriate records of student attendance and identify in the fiscal data plan any student groups or dates that are excluded from the calculation. In light of the unique challenges caused by the national emergency related to the coronavirus disease 2019 (COVID-19) pandemic and in order to collect the most consistent and measurable data possible, states may instead choose to report under the Federal ADA definition for SY 2019-2020.

ADA – NCES Definition (A14B) – NCES requests that states with no laws or regulations governing the determination of average daily attendance use the NCES definition of ADA: (i) the aggregate number of days of attendance of all students during a school year, divided by (ii) the number of days school is in session during that year [20 U.S.C. §7801(1)]. This definition requires every school or school district in a state to collect attendance every day it is in session and to record the number of days it is in session. The aggregate number of days of student attendance for each school or school district is divided by the number of days each school or school district is in session. To calculate the state total, add the figures for every school or school district in the state.

In light of the unique challenges caused by the national emergency related to the coronavirus disease 2019 (COVID-19) pandemic and in order to collect the most consistent and measurable data possible, states that have a temporary inability to report attendance may include in ADA data reporting those days for which attendance was collected preceding and subsequent to the interruption. States have the flexibility to report even if they are unable to report remote learning days from all schools or LEAs. States should ensure

that attendance was collected for each day that the school was in session, whether the instruction was in-person, remote, hybrid, virtual synchronous, or asynchronous. States should also maintain appropriate records of student attendance and identify in the fiscal data plan any student groups or dates that are excluded from the calculation.

STATE PER PUPIL EXPENDITURE (SPPE)

Section 7 is devoted to the calculation of the State Per Pupil Expenditure (SPPE). The SPPE is a key component in the formula for allocating Title I and other federal funds to states and school districts. The Title I amount and the details of the SPPE calculation are carefully scrutinized by the U.S. Department of Education and the U.S. Congress. This careful scrutiny includes routine audits by the U.S. Department of Education’s Inspector General.

For purposes of calculating SPPE, expenditures (including carryover) from certain federal grants as well as fees and other revenue from individuals must be subtracted from Current Expenditures. Federal law requires NCES to use net expenditures (expenditures minus exclusions) when calculating a per pupil expenditure for allocating federal grants to states. Section 7, Exclusions from Current Expenditures for State Per Pupil Expenditures (SPPE), provides a list of revenues and expenditures to be subtracted.

Calculation of SPPE

SPPE (PPE15) is calculated by dividing Net Current Expenditures (NCE13) by Average Daily Attendance (A14A or A14B).

Step 1: Subtract Exclusions (TX12) from Current Expenditures (TE5) to obtain Net Current Expenditures (NCE13) [Current Expenditures – Exclusions = Net Current Expenditures]

Step 2: Divide Net Current Expenditures (NCE13) by Average Daily Attendance (ADA) to obtain SPPE (PPE15) [Net Current Expenditures / Average Daily Attendance = SPPE]
