

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 1910-5160)

TITLE OF INFORMATION COLLECTION: Center for Security Technology, Analysis, Response, and Testing (CSTART) Survey

PURPOSE:

The creation of CSTART was authorized in 2012 with the goal of enhancing the physical security program across the National Nuclear Security Administration (NNSA) nuclear security enterprise. As part of that mission, in 2018, the CSTART portal was launched to provide a forum to improve communications and connectivity across NNSA’s safeguards and security program. The primary goal of the portal is to provide relevant, easy-to-navigate content for our users, the members of the NNSA safeguards and security community. In this survey, we would like to evaluate our success in meeting those goals. We are seeking candid feedback to optimize the use of CSTART.

DESCRIPTION OF RESPONDENTS:

The target audience of the survey is users of the CSTART portal, which includes Federal Government employees and contractors in the nuclear Safeguards & Security (S&S) community.
