

SUPPORTING STATEMENT

A. Justification:

Existing Information Collection Requirements:

1. FCC Form 161, "CORES Update/Change Form," is part of the Commission's Registration System (CORES). This form may be found at: www.fcc.gov/Forms/Form161/161.pdf.
 - (a) Applicants/entities (respondents) use FCC Form 161 to update/change their name, address, contact representative, telephone, e-mail address, fax number, etc., which was previously entered into the CORES database.
 - (b) The Commission uses FCC Form 161 to allow applicants and licensees doing business with the FCC to keep their account information current.
 - (c) The Commission will also use FCC Form 161 to update/change information in the Commission's database.
 - (d) For businesses and individuals, the FCC Registration Number (FRN) is its Federal Communications Commission-issued FCC FRN. The FRN is a unique account number that is used for identification purposes only.

This information collection does affect Individuals or Households. The FCC is updating the Privacy Impact Assessment (PIA) for CORES that is covered by FCC/OMD-25, Financial Operations Information System (FOIS), Systems of Records Notice (SORN).

Statutory authority for this collection of information is the Debt Collection Improvement Act of 1996, Public Law 104-134, Chapter 10, § 31001.

2. The Commission uses the information that applicants provide on FCC Form 161 to update and/or to change their CORES information.
 - (a) This is necessary to ensure that the Commission has accurate information to identify applicant filer and to ensure proper crediting of the transaction and money, if applicable.
 - (b) Applicants (respondents) may update/change their data via the FCC Internet webpage: <https://apps.fcc.gov/cores>.
3. Respondents may provide the information on FCC Form 161 electronically via the FCC's webpage: <https://apps.fcc.gov/cores>, or respondents may continue to file the paper version of FCC Form 161.
4. There is no similar information already available. The Commission is required to obtain this information from any applicants and/or licensees doing business with the Commission.
5. In conformance with the Paperwork Reduction Act of 1995, the Commission is making an effort to minimize the burden on all respondents, regardless of size.
 - (a) The collection will have minimal impact on all respondents.

- (b) The Commission has limited its collection of information to only the extent needed to identify a person or business interacting with the Government.
6. The FRN is used each time a person or entity does business with the Commission. Although this unique number is stored in the Commission’s CORES database, it is an integral part of each filing or service/benefit request. It also serves to identify the filer so as to ensure proper crediting of the transaction and money, if applicable.
7. There are no special circumstances that would cause this information collection to be conducted in a manner inconsistent with the OMB’s guidelines.
8. The Commission published a Notice in the *Federal Register* on January 29, 2020 (85 FR 5210), which initiated a 60-day comment period. No comments were submitted following publication of the notice.
9. Respondents will not receive any payments or gifts.
10. Consistent with the provisions of the Privacy Act, the Taxpayer Information Number, *i.e.*, Social Security Number and/or the Employee Identification Number, will not be made available to the public. A privacy act statement is included on FCC Form 161 so that applicants (respondents) are informed of the need to obtain the information.
- (a) The Commission maintains a SORN, FCC/OMD-25, Financial Operations Information System (FOIS), to cover the collection, purpose(s), storage, safeguards, and disposal of the PII that individual respondents may submit on FCC Form 161.
- (b) FCC Form 161 includes a privacy statement to inform applicants (respondents) of the Commission’s need to obtain the information and the protections that the FCC has in place to protect the PII.
11. This collection does not include any questions of a sensitive nature.
12. The Commission estimates that:
- (a) There are 101,200 respondents per year.
- (b) The average burden per response is approximately ten minutes (0.167 hours) based on FCC staff’s knowledge and familiarity with the availability of the data that respondents are required to have to file FCC Form 161, “CORES Registration Form:”

101,200 responses x 0.167 hours = 16,900 hours

Total Number of Respondents: 101,200

Total Number of Responses: 101,200

Total Annual Hourly Burden: 16,900 hours

The Commission estimates that respondents will use the equivalent of a senior staff person at the GS-13/Step 5 (\$56.31 per hour) to complete and file FCC Form 161:

$$101,200 \text{ responses} \times 0.167 \text{ hours (ten minutes)} \times \$56.31 \text{ /hour} = \$951,639$$

Total “In-House” Costs: \$951,639

13. The Total Annual Reporting and Recordkeeping Cost Burden estimates:

(a) Total annualized capital/startup costs: \$0.00

(b) Total annual costs (O&M): \$0.00

(c) Total annualized cost requested: \$0.00

14. There are no costs to the Federal Government. The FCC considers the costs to administer the regulatory fee program, including processing FCC Form 161, as part of its regular operations.

15. The Commission is reporting adjustments/increases to this information collection. The total number of respondents and total annual responses increased from 5,500 to 101,200 (+95,700 respondents/responses) and the total annual burden hours increased from 919 hours to 16,900 (+15,981 hours). These adjustments are based on the Commission’s most currently available data.

16. The data will not be published for statistical use.

17. We are seeking continued OMB approval not to display the expiration date of OMB approval of the information collection.

(a) The Commission will use an edition date in lieu of an OMB expiration date.

(b) Additionally, the Commission published all OMB-approved information collections in 47 CFR § 0.408.

18. There are no exceptions to the Certification Statement.

B. Collections of Information Employing Statistical Methods:

This information collection does not employ any statistical methods.
