

that stationary sources located in ozone nonattainment areas in the State, including Delaware's marginal nonattainment areas for the 2008 ozone NAAQS, submit emission statements. In addition, 7 DE Administrative Code 1117 Section 7.2 requires emissions statements be certified by and official of the facility and Section 7.3 requires emissions statements be submitted annually on April 30. EPA proposes to determine that these provisions satisfy the requirements of CAA section 182(a)(3)(B)(i) for the 2015 ozone NAAQS as they require emissions statements be certified and submitted annually.

EPA also proposes to determine that Delaware's emissions thresholds for stationary sources that are required to submit an emissions statement meet the threshold requirements of CAA section 182(a)(3)(B)(ii). As discussed previously, pursuant to CAA section 182(a)(3)(B)(ii), states may waive emissions statements requirements for classes or categories of stationary sources that emit less than 25 tpy of NO_x or VOC if the state provides an inventory of emissions from such classes or categories of sources as required by CAA section 172 and 182. As shown in Table 1, 7 DE Administrative Code 1117 Section 7.1 waives, with EPA approval, the requirement for emissions statements for classes or categories of stationary sources with facility-wide actual emissions of less than 25 tpy of NO_x or VOC if the class or category is included in the base year and periodic ozone emission inventories. Delaware does provide emissions inventories that include stationary sources in nonattainment areas that emit less than 25 tpy of NO_x or VOC, as required by CAA sections 172(c)(3) and 182(b)(3)(B)(ii). Therefore, EPA finds the emissions thresholds of 7 DE Administrative Code 1117 Section 7.1 are consistent with CAA section 182(a)(3)(B)(ii).

EPA has determined that the SIP-approved provisions under 7 DE Administrative Code 1117 Section 7.0 satisfy the requirements of CAA section 182(a)(3)(B) for the 2015 ozone NAAQS. Therefore, EPA is proposing to approve, as a SIP revision, the State of Delaware's, August 3, 2020 emissions statements certification for the 2015 ozone NAAQS as approvable under CAA section 182(a)(3)(B).

III. Proposed Action

EPA is proposing to approve, as a SIP revision, the State of Delaware's August 3, 2020 emissions statements certification for the 2015 ozone NAAQS

as approvable under CAA section 182(a)(3)(B). Delaware's emissions statements certification certifies that Delaware's existing SIP-approved emissions statements program under 7 DE Administrative Code 1117 Section 7.0 satisfies the requirements of CAA section 182(a)(3)(B) for the 2015 ozone NAAQS. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

IV. Statutory and Executive Order Reviews

Under the CAA, the EPA Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because it is not a significant regulatory action under Executive Order 12866.
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because

application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rulemaking, in which EPA is proposing approval of Delaware's certification that its existing emission statement program satisfies the emission statement requirements of the CAA for the 2015 ozone NAAQS, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: March 24, 2021.

[WC Docket No. 17-97; FCC 21-15; FRS 17992]

Call Authentication Trust Anchor; Correction

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects the comment due date for the Paperwork Reduction Act requirements of a proposed rule published in the **Federal Register** of February 17, 2021, regarding STIR/SHAKEN caller ID authentication. This correction clarifies that written comments on the Paperwork Reduction Act proposed information collection requirements must be submitted by the public, Office of Management and Budget (OMB), and other interested parties on or before 60 days after the date of this correction's publication.

DATES: June 1, 2021.
