

Non-substantive changes made to 3206-0277

In an effort to place all of the requested information on page one, the changes were made since approval on August 6th:

- Checkboxes added in the PDF version.
- The title was indented to make room for agency seal.
- Moved the footnotes to the body and removed the formatting from what had been the first footnote.
- Redid the signature section to take up less space by removing the first and last words from “your printed name here” and “your signature here.”
- OPM is not responsible for government wide SORN coverage for contractors and visitors - only for employees under OPM Gov't 10 there are 2 forms - one for employees and one for contractors/employees/visitors.
