Dr. Dennis J. Fixler  
Chief Economist  
U.S. Department of Commerce  
Bureau of Economic Analysis  
1441 L Street NW  
Washington, DC 20230

Dear Dr. Fixler and Ms. Burrell,

Thank you for your letter of continued support of NASS surveys. The Annual Floriculture survey is a very important part of the overall NASS program. Many of the floriculture producers are located in ag-urban areas which are not represented by most of our traditional agricultural surveys conducted by NASS. For some States and counties, the floriculture industry is extremely important to their local economies. Accurate, timely data are also very important to this industry and many government agencies. NASS is expanding the survey this year to include all 50 states. In addition, some adjustments have been made to the particular varieties of plants included in the survey based on results from the previous Census of Horticulture.

We will keep you informed of any modifications.

Sincerely,

 Digitally signed by
