The Food and Nutrition Service (FNS) is collecting this information to understand how the COVID-19 pandemic has affected school food authority (SFA) operations and finances and to satisfy State agencies' congressionally mandated reporting requirements for the COVID-19 nationwide waivers pursuant to section 2202 of the Families First Coronavirus Response Act (P.L. 116-127). This is a mandatory collection for State agencies and SFAs. FNS will use the information to assess how the waivers improved services to children and to inform FNS's planning, policy, and guidance related to state and local meal service operations. Because the personally identifiable information (PII) requested under this collection will not be used to retrieve survey records or data, requirements of the Privacy Act of 1974 do not apply. Responses will be kept private to the extent provided by law and FNS regulations. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0607. The time required to complete this information collection is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Service, Office of Policy Support, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314, ATTN: PRA (0584-0607). Do not return the completed form to this address.

Introduction

The U.S. Department of Agriculture (USDA) Food and Nutrition Service (FNS) has contracted with Mathematica to conduct the School Meals Operations (SMO) Study. Updated information about school-based Child Nutrition (CN) Programs will help FNS effectively oversee these programs and inform both policy decisions and future training and technical assistance.

Because the COVID-19 pandemic changed the way that school-based CN programs operated during school year (SY) 2020–2021, this survey includes questions about how the pandemic affected program operations and finances.

The survey topics include:

- Meal service and operations during SY 2020–2021
- Financial impacts of the COVID-19 pandemic
- Program operations at the start of SY 2021–2022
- Food service management company (FSMC) contracts

Cooperation by States and districts is required under Section 28 of the Richard B. Russell National School Lunch Act. At the same time, recognizing the administrative effort associated with participating in research studies, SMO has been designed to limit participant burden to the extent possible. **It should take about an hour to complete the survey.**

To avoid redundant information requests, the survey focuses only on questions that cannot be answered with administrative data you have already reported to your State agency on CN program participation. The study team will receive those data from your State agency. [DELETE IF "CERTAINTY SAMPLE SFA": Also, although this study may continue for two more years, your SFA is only being asked to participate once during the three-year period. The responses of each SFA in the annually selected nationally representative sample will therefore speak for many SFAs.]

All information collected for this study is for research purposes only and will be kept private to the full extent allowed by law. Personally identifiable information (PII) will not be used to retrieve survey records or data.

We thank you in advance for your time and cooperation in this important study. If you have any questions about the study or about completing this survey, please email SMOStudy@mathematica-mpr.com or call Mathematica toll-free at 833-440-9475.

INSTRUCTIONS

Instructions for Completing the Survey

- If you need a colleague to complete a section of the survey, you should forward them the email with the link to the survey. They do not need a separate link.
- **Avoid having multiple people logged into the survey at once.** Responses may not be recorded correctly if multiple users are logged into the survey at the same time.
- If you or a colleague are returning to finish your saved survey, the program will return to the point where you left off.
- This survey has been optimized to run on a desktop computer and is best viewed in the latest versions of Chrome, Firefox, or Internet Explorer.
- Click the "Next" button to progress in the survey. You must click this button to save your responses. **If you cannot complete the survey in one sitting, click the "Next" button before you close your browser.** Your answers will be saved.
- Click the "Back" button to go to the previous question.
- **Use the buttons and links within the survey.** Using your browser's "Back" function may cause errors.
- Definitions for key terms are provided in the **glossary** located on the "Help" page. As you complete the survey, you may return to this page at any point via the "Help" link in the lower left corner of the window.
- If you have any questions about the study or about completing this survey, please email SMOStudy@mathematica-mpr.com or call Mathematica toll-free at 833-440-9475.
