DIGITAL SERVICES ROUNDTABLE DISCUSSION QUESTIONS

Crucial Digital Services – Present and Future

- *What digital services and related technologies does your company currently export abroad as stand-alone products or bundled with machinery goods?*
- *What digital services does your company provide as a standalone product, or as a portion of the final sale of a manufactured good? (for smaller companies that may not export)*
- *What digital services and related technologies does your company currently use to accomplish day-to-day manufacturing operations (e.g. Internet of Things (IoT) services, predictive maintenance, cybersecurity, data analysis)?*
- *In your opinion, in what digital services is the United States most competitive in overseas?*
- *Can you rate specified digital services in order of importance to your company? Can you rate specified digital services that your company exports in order of importance?*
- *If you are a digital services provider, what are the primary digital services that you provide for your customers? Are there other supportive digital services you use in order to serve your customers (e.g. app development, systems integration, etc.)? What digital services that you provide would you consider the most important now and predict would be most important in the future?*
- *Do you anticipate your demand (or demand from your customers) for digital services changing in the next five years? Ten years? If so, at what rate?*
- *Based on what you've seen or heard, what digital services do you anticipate being or will continue being necessary to compete internationally?*

Digital Services Categorization

**U.S. Department of Commerce / Commercial Service (CS)
Combined Customer Survey and Focus Group Questions**

- *How would you categorize the digital services you export abroad, whether sold as a stand-alone product or bundled with a manufactured good? To see how the U.S. government currently categorizes exported digital services for data collection purposes, you can look over the Bureau of Economic Analysis's BE-120 "Benchmark Survey of Transactions in Selected Services and Intellectual Property with Foreign Persons Respondents."*
- *What digital service categories identified in the BEA survey are relevant to manufacturing exports and are there any digital service categories you currently export that are missing in the survey?*
- *Looking ahead, do you anticipate any new digital services categories emerging within the next 5-10 years?*
- *Do you anticipate any new digital services or related technologies in manufacturing being exported within the next 5-10 years that are not exported currently?*
- *Under which digital services categories would those new technologies fit?*

Data Collection Methods

- *What would be the most effective metric to capture the following:*
- *The percentage of your company's total sales or revenue attributed to the bundling of digital services in the sale/export of your final products? (We are not asking for the value of digital services in the manufacturing process of the final product)*
- *For companies selling digital services used in the manufacturing process: What is the best metric to obtain the estimated value that your services add to a customer's production process or to the sale of a finished product?*
