Connection Information

You can attend the meeting online using a computer, tablet, or smartphone; or by telephone only. Connection information will be posted online at: <https://www.npfmc.org/upcoming-council-meetings>. For technical support, please contact our administrative staff, email: npfmc.admin@noaa.gov.

Public Comment

Public comment letters will be accepted and should be submitted electronically through the links at <https://www.npfmc.org/upcoming-council-meetings>. The Council strongly encourages written public comment for this meeting, to avoid any potential for technical difficulties to compromise oral testimony. The written comment period is open from September 17, 2021, to September 29, 2021, and closes at 5 p.m. Alaska Time on September 29, 2021.

Although other non-emergency issues not on the agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Actions will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Satellite Customer Questionnaire

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to

comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on June 9, 2021 (86 FR 30595) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: NOAA Satellite Customer Questionnaire.

OMB Control Number: 0648-0227.

Form Number(s): None.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 30.

Average Hours per Response: 6 minutes per response.

Total Annual Burden Hours: 3.

Needs and Uses: This request is for extension of a current information collection. The National Oceanic and Atmospheric Administration (NOAA) operates a minimum of four meteorological satellite imagery transmission systems, two from geostationary operational environmental (GOES) satellites and two from polar-orbiting television infrared operational (TIROS) satellites. In addition, legacy backup and standby polar-orbiting satellites continue to be operated as their health permits. The data transmitted are available worldwide, and any user can establish a ground receiving station for reception of the data without the prior consent, notification, or other approval from NOAA. With such an open access policy, it is currently not possible to have a comprehensive understanding of the range and number of the data users and application of the data received and/or used. The purpose of collecting the information contained in the user registration form is to satisfy the following objectives: (1) To comply with international agreements such as the Department of Commerce (DOC)/NOAA's efforts with the World Meteorological Organization (WMO), so that NOAA can provide environmental satellite data and processed satellite data products to the public domain, and (2) To improve Government efficiencies of data dissemination using cost-saving technologies to minimize the expenditure of personnel and financial resources.

The collection of information from a respondent is initiated when an individual contacts National Environmental Satellite, Data, and Information Service (NESDIS) via letter,

telephone, fax or email, or when they visit a web page. If the nature of the contact indicates the individual may operate a satellite receiving station for the acquisition of NOAA satellite data or may use NOAA satellite data or services, the individual is requested to complete an on-line electronic questionnaire, which is found on a NOAA internet site. The questionnaire is completed at the respondent's discretion. The information received is used by NOAA for short-term operations and long-term planning. Collection of this data assists in complying with the terms of the coordination with the WMO, MOU with DOC, and NOAA on areas of common interest and other international agreements.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; Federal government.

Frequency: Once; updates as needed.

Respondent's Obligation: Voluntary.

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Documentation of Fish Harvest

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication

of this notice. We invite the public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on June 8, 2021, (86 FR 30448) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Documentation of Fish Harvest.

OMB Control Number: 0648–0365.

Form Number(s): None.

Type of Request: Regular submission—extension of a current information collection.

Estimated Number of Respondents: 379.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours: 63.

Needs and Uses: The NMFS Southeast Regional Office proposes to extend the information collection currently approved under OMB Control Number 0648–0365.

The NMFS Southeast Regional Office manages commercial fishing in Federal waters of the South Atlantic under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

Federally permitted seafood dealers who process or sell snapper-grouper species during seasonal fishery closures in the South Atlantic for those applicable species must maintain documentation, as specified in 50 CFR part 300 subpart K and 50 CFR 622.192(i), that such fish were harvested from areas other than state or Federal waters in the South Atlantic. The applicable snapper-grouper species are greater amberjack, gag, black grouper, red grouper, scamp, red hind, rock hind, yellowmouth grouper, yellowfin grouper, graysby, and coney. The documentation includes information on the vessel that harvested the fish, and where and when the fish were offloaded. NMFS requires the information for the enforcement of fishery regulations at 50 CFR 622, subpart I.

Affected Public: Business or other for-profit organizations.

Frequency: As needed.

Respondent's Obligation: Mandatory.
