SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection.

The information to be submitted under this collection of information is necessary to comply with obligations under the International Convention for the Regulation of Whaling (1946). The Schedule of the Convention is binding on the United States and requires that this information be submitted for all whaling operations authorized by the International Whaling Commission (IWC), including the aboriginal subsistence whaling conducted by Native Americans. The Whaling Convention Act (16 U.S.C. 916–916l) authorizes the collection of this information. Regulations codifying the provisions of this act are at 50 CFR part 230. Information on the retrieval and use of dead whales (“stinkers”) is requested in order to have a record of all whales brought to shore and to ensure that whales killed under the IWC quotas are not claimed to have been found dead.

Native Americans may conduct certain aboriginal subsistence whaling under the Whaling Convention Act in accordance with the provisions of the International Whaling Commission (IWC). In order to respond to obligations under the International Convention for the Regulation of Whaling, the IWC, and the Whaling Convention Act, whaling captains participating in these operations must submit certain information to the relevant Native American whaling organization about strikes on and catch of whales. Anyone retrieving a dead whale is also required to report. Captains must place a distinctive permanent identification mark on any harpoon, lance, or explosive dart used, as well as provide information on the mark and self-identification information. The relevant Native American whaling organization receives the reports, compiles them, and submits the information to NOAA. The information is used to monitor the hunt and to ensure that quotas are not exceeded. The information is also provided to the IWC, which uses it to monitor compliance with its requirements.

II. Method of Collection

Reports may be made by phone, fax, email, or in writing. Information on equipment marks must be made in writing. No form is used.
