SECTION 6 - BIOSAFETY AND LABORATORY INFORMATION ON SELECT AGENTS AND TOXINS

Make additional copies of this section of the form as needed for each PI at your entity. Each PI should complete the appropriate section for laboratories under his/her control where select agents are used or stored. For information on completing this section, refer to page 3 (B)(7) of the guidance document.

SECTION 6A - TO BE COMPLETED BY ALL ENTITIES FOR EACH PRINCIPAL INVESTIGATOR

Provide the following information on a separate line for each laboratory safety level: the select agent or toxin; the strain designation of the select agent or toxin, the building and room number(s) where each select agent or toxin will be used and stored, and laboratory safety level for each PI (or Chief Scientist). For entities only storing and not actively working with select agents or toxins, do not complete "laboratory area" column. For information on completing this section, refer to page 3 (B)(7) of the guidance document.

Select Agent/Toxin	Strain Designation (list "N/A" if not applicable or "TBA" if to be acquired)	Laboratory Area		Storage Area		Laboratory Safety Level*	Principal Investigator
