**Important Information About PRAMS**

***Please Read Before Starting the Survey***

The Pregnancy Risk Assessment Monitoring System (PRAMS) is a research project sponsored by the Centers for Disease Control and Prevention and the Puerto Rico Department of Health

The purpose of the study is to find out why some babies are born healthy and others are not.

We are asking 1,400 women in Puerto Rico to answer the same questions. All of your names were picked by a computer from recent birth certificates.

It takes about 25 to 42 minutes to answer all questions. Some questions may be sensitive, such as questions about smoking or drinking during pregnancy.

You are free to do the survey or not. If you don't want to participate at all, or if you don't want to answer a particular question, that's okay. There is no penalty or loss of benefits for not participating or answering all questions.

Your survey may be combined with information the health department has from other

Centers for Disease Control and Prevention  
1600 Clifton Rd, Atlanta, GA 30333, U.S.A

 [Department of Health and Human Services](#)

Prams Web Survey Module Portal x +

prams-test.cdc.gov

 Department of Health and Human Services  
Centers for Disease Control and Prevention

sources.

If you choose to do the survey, your answers will be kept private and will be used only to answer questions related to the purpose of this study. This is so because this study has been given a Certificate of Confidentiality. This means that we may not share information that may identify you in legal suits or proceeding, even if a court orders us to do so, unless you say it's okay.

If you are currently in jail, your participation in the study will have no effect on parole.

Your name will not be on any reports from PRAMS.

Your answers will be grouped with those from other women. What we learn from PRAMS will be used to plan programs to help mothers and babies in Puerto Rico.

If you have any questions about your rights in the project, please call at 701-231-8995.

If you have any questions about PRAMS, please contact us at .

I understand and consent to proceed with the survey
