TITLE OF INFORMATION COLLECTION: Rachel Pearline Award Nominations (NCI)

PURPOSE:

The 9th Annual Symposium on Global Cancer Research Steering Committee would like to invite nominations for the 6th Annual Rachel Pearline Award, to be presented at the virtual Symposium.

The Rachel Pearline Award honors Rachel Pearline, MD, MPH who received the award named in her memory in 2016 following her death at the age of 38, in November 2015, from gastric cancer. As part of the Symposium each year, we recognize one outstanding professional for their excellence in global cancer research and practice. The Steering Committee invites nominations of individuals, at any stage in their career, who have made major contributions to global cancer research and practice. The nominee's work should focus on cancer research and practice in low- and middle-income countries. The Steering Committee particularly wishes to encourage nominations of individuals currently living and working in a LMIC. The nominee will be recognized at the Annual Symposium on Global Cancer Research where they must give a keynote address that highlights their contributions to global cancer research or practice, and their future perspectives.

DESCRIPTION OF RESPONDENTS:

NIH Scientists, NIH-funded Researchers, PIs, NCI Designated Cancer Centers, academic institutions, students, and researchers from low- and middle-income countries.
