TITLE OF INFORMATION COLLECTION: BPCA Prioritization – Identification of Knowledge Gaps in Pediatric Drug Development

PURPOSE:

The Best Pharmaceuticals for Children Act (BPCA) Program at the NIH is a pediatric drug development program for off-patent therapeutics used in children. The Program, led by the NICHD, is responsible for identifying gaps in pediatric therapeutics, prioritizing studies that need to be done to close those gaps, sponsoring clinical trials in those prioritized areas, and disseminating data to the public. In preparation for the 2020 BPCA Annual Stakeholders Meeting December 14-15, 2020, the BPCA Program is looking for feedback from stakeholders on therapeutic gaps in pediatric drug development in order to inform the 2021 prioritization process. The survey will be administered via Survey Monkey.

BPCA Stakeholder Meetings include presentations about the status of the program, progress from BPCA-funded research, review and discussion of proposed future therapeutic areas, and updates on currently funded studies. This year’s meeting will also include discussion of a more detailed framework and roadmap to further define future activities.

DESCRIPTION OF RESPONDENTS:

Respondents consist of BPCA stakeholders who are academicians, clinicians, and researchers. Many BPCA stakeholders have been involved with the BPCA Program for years and regularly contribute to identification of pediatric needs and prioritization of therapeutic areas in pediatric research.

If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?
 Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

The list is of approximately 590 BPCA stakeholders from the National Institutes of Health (NIH), U.S. Food and Drug Administration (FDA), academia, the pharmaceutical industry, and members of pediatric advocacy groups who have interest in improving pediatric drug development. The survey link will be sent to the full list.

Administration of the Instrument

1. How will you collect the information? (Check all that apply)
 Web-based or other forms of Social Media
 Telephone
 In-person
 Mail
