Administration

Throughout the progress report, **grantee** refers to the state/tribe/jurisdiction receiving the award from SAMHSA. **Community** refers to the grantee’s selected High-Need communities, and **subrecipient** indicates the grantee’s sub-awardees funded to lead the grant in the selected communities. Some grantees refer to their subrecipients as sub-grantees. Some grantees may not have a subrecipient responsible for leading the grant in each of the selected communities.

Sub-State Information

If you selected “yes” in the grantee information section to indicate you use a sub-state model for this grant, enter information on the sub-state(s) below. The term “Sub-State” refers to a regional, county-level, or other entity that serves as an intermediary between the Grantee and the Subrecipients.

Item	Response Options
In the SPARS data collection system, there will be an “Add” button to add each of your sub-states. Grantees will be able to click that button to add additional sub-states as needed.

High-Need Communities

Selected High-Need Community: Through your Disparities Impact Statement (DIS) and your Needs Assessment (if applicable), every grantee is expected to identify one or more high-need/low-capacity community(ies). Use this section to add or update information about your selected high-need community(ies). For Single-Community grantees, if you identify your tribe or territory as your high-need community, please enter that here.

Item	Response Options
In the SPARS data collection system, there will be an “Add” button to add each of your selected high-need communities. Grantees will be able to click that button to add additional communities as needed.

Needs Assessment

Assessment involves the systematic gathering and examination of data about alcohol and drug problems, related conditions, and consequences in the area of concern in your community(ies). Assessing the issues means pinpointing where the problems are in the community and the populations impacted. It also means examining the conditions within the community that put its populations at risk for the problems and identifying conditions that—now or in the future—could protect the population against the problems.

Needs Assessment

Use this section to upload and provide a brief description of your Needs Assessment document. Once you upload your Needs Assessment document, you will only update this section if you revise your Needs Assessment.

This document may not be required by your grant program; so please ask your project officer if you need to upload.

Accomplishments and Barriers/Challenges

Use this section to enter information on any Accomplishments and/or Barriers/Challenges that you had this reporting period while performing activities related to your Needs Assessment. Please include actions you took to address any Barriers/Challenges.

After you save the Accomplishment or Barrier/Challenge, it will appear on the list. You can click "edit" to revise the record or you can add an additional record by clicking the "Add Accomplishments" or the "Add Barriers/Challenges" button.

Capacity

Capacity refers to the various types and levels of resources available to establish and maintain a community prevention system. This prevention system can identify and leverage resources that will support an effective strategy aimed at the priority problems and identified risk factors in the community at the appropriate population level. Capacity to carry out strategies depends not only upon the resources of the community organizations and their function as a cohesive problem-solving group, but also upon the readiness and ability of the larger community to commit its resources to addressing the identified problems.

Membership

Use this section to add any organizational and/or individual members to your Advisory Council, Epidemiological Outcome Workgroup (EOW; if required), or other Workgroup. To edit or mark previously added members as inactive, use the table headings to sort Members, then click the edit button for the Member you wish to edit. These members will carry over from one reporting period to the next, so only revise as new members join or old members become inactive.

Grantee Funding Resources

Use this section to enter funding resources information for your grant. Unless the information changes from one reporting period to another, this information only needs to be entered once per fiscal year.

Which of the following funding sources did your organization receive during this fiscal year? Which of those sources did your organization use to fund priorities in high-need communities?

Data Item	Response Options
Source of funding	<ul style="list-style-type: none"> • SAMHSA Partnerships for Success (PFS) • SAMHSA Strategic Prevention Framework for Prescription Drugs (SPF-Rx) • SAMHSA Medication-Assisted Treatment-Prescription Drug and Opioid Addiction (MAT-PDOA) • SAMHSA Minority HIV/AIDS Initiative (MAI) • SAMHSA State Targeted Response to the Opioid Crisis Grants (Opioid STR) • SAMHSA Grants to Prevent Prescription Drug/Opioid Overdose-Related Deaths (PDO) • CDC Prescription Drug Overdose: Prevention for States (PFS) • CDC Data-Driven Prevention Initiative (DDPI) • CDC Expanded Overdose Surveillance • BJA Harold Rogers Prescription Drug Monitoring Program (PDMP) Grant • Health Resources and Services Administration (HRSA) Rural Opioid Overdose Reversal (ROOR) • Drug Free Communities Grants • STOP Act Funding • Substance Abuse Prevention and Treatment Block Grant • Medicaid (Federal, State, and Local) • Other Federal Funds • State/Territory Funds (excluding State Medicaid) • Municipal Government Funds (excluding State Medicaid) • Local Funds (excluding State Medicaid) • Foundation/Non-Profit Organization Funding • Private/Corporate Entities • Individual Donations/Funding from Fundraising Events • Other (Please Specify)

Training and Technical Assistance (TA)

Use this section to record any Training and TA provided to the grantee or subrecipients and communities to build capacity. This includes training and TA provided by grantees or by other contractors and consultants.

Training refers to the delivery of structured events focused on topics such as data collection protocols and systems, building community partnerships, or implementing media campaigns.

Technical Assistance refers to substantial services provided by professional prevention staff to give technical guidance to grantees and individuals to effectively implement their grant.

Training and TA should be counted as one unit per issue. It does not include simple clarifying assistance (e.g., sending someone to a web site).

Grantee refers to the state, tribe, or jurisdiction receiving the award from SAMHSA.

Community refers to the grantee's selected High-Need Communities, and

Subrecipient indicates the grantee's sub-awardees funded to lead the grant in the selected communities.

Item	Response Options
In the SPARS data collection system, there will be "Add" buttons for both T/TTA received by the Grantee AND T/TTA provided to Subrecipients or Communities. Grantees will be able to click these buttons to add T/TA as needed.

Planning

Planning involves following logical sequential steps designed to produce specific results. The desired results (Outcomes) are based upon data obtained from a formal assessment of needs and resources. Thus, the plan outlines what will be done over time to create the desired change.

Strategic Plan

Use this section to upload and provide a brief description of your strategic plan. Note that this section is for uploading grantee-level, rather than community- or subrecipient-level documents. So do not load community- or subrecipient-level plans here. Once you upload the strategic plan, only update this section if you revised the plan.

This document may not be required by your grant program; so please ask your project officer if you need to upload.

Behavioral Health Disparities

SAMHSA defines behavioral health as mental/emotional well-being and/or actions that affect wellness. The phrase “behavioral health” is also used to describe service systems that encompass prevention and promotion of emotional health; prevention of mental and substance use disorders, substance use, and related problems; treatments and services for mental and substance use disorders; and recovery support (for more information see:

<https://www.samhsa.gov/data/national-behavioral-health-quality-framework>).

Healthy People 2030 prioritizes eliminating health disparities, achieve health equity, and attain health literacy to improve the health and well-being of all. Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion.

In this section, we would like you to describe the efforts and activities that your state, tribe, or jurisdiction has undertaken in the project to address Behavioral Health Disparities related to substance use disorders risks, prevalence, and outcomes.

Disparities Impact Statement (DIS)

Use this section to upload your Disparities Impact Statement (DIS). After you upload the DIS and it is accepted by your project officer, you will only update this section if there are newly identified disparate and population(s) or if you are revising plans to improve the quality of programming to address the needs (access, use/reach, outcomes) of the disparate population. If you do not have an approved DIS, please continue to work with your project officer to finalize it as soon as possible. You

should not enter any additional information in the Behavioral Health Disparities module until it is approved.

Population(s) Experiencing the Disparity

Although the term disparities is often interpreted to mean racial or ethnic disparities, many dimensions of disparity exist in the United States, particularly in health. If a health outcome is seen to a greater or lesser extent between populations, there is disparity." We are asking grantees to specify the population(s) experiencing the disparity within the context of your High-Need Community(ies) and subrecipients.

Grantees may describe the population(s) experiencing the disparity using a broad demographic or cultural category - or "subpopulation". The DIS asks you to use publicly available data to identify subpopulations within your High-Need Communities. You may quantify subpopulations more specifically as a "disparate population" using data and a designated comparison group. For example, you may identify the subpopulations by "race" and the disparate population as "Black or African American". However, just because you can separate out a subpopulation (e.g., age separated out by age ranges), does not mean you should identify it as disparate. You should only consider a population "disparate" if you identify a specific race, ethnicity, sex, or LGBTQ identity using a data-driven justification.

Use the "Add a Population(s) Experiencing Disparity Record" button to create a new record. You will first identify your disparate and other subpopulations and then estimate how many individuals from those populations you plan to directly reach/indirectly serve per year. When this information is finalized, click the

"Complete Plan" link (note: if you are still in the planning stage, you should not click the "Complete Plan" link. You should submit what you have as a draft).

After you complete your plan, you will report the number of individuals your high-need community(ies) actually reached/served each reporting period.

Focus and Data Gaps

The following section ensures that your high-need communities focus on the subpopulation(s) experiencing the disparities and asks about any data gaps related to the disparate and subpopulation(s) that you identified.

Item	Response Options
<p>What steps did you take to ensure that your high-need communities are focusing on the identified disparate and subpopulation(s)?</p>	<p>Free text</p>
<p>Describe any data gaps you identified related to the disparate or subpopulation(s). Please be specific. If no data gaps currently exist, please enter "n/a" for not applicable.</p>	<p>Free text</p>

For any data gaps described above, please explain how you are addressing the gaps. If you had none, please enter “n/a” for not applicable.	Free text

Access to Prevention Efforts

Increasing access to prevention efforts is an important part of reducing behavioral health disparities. Use this section to enter information about technical assistance and/or guidance you provided to your high-need communities to increase access to prevention efforts for their identified disparate and subpopulations. Be sure to consider this as it relates to implementation of policies, practices, and/or programs to address behavioral health disparities.

Item	Response Options
Briefly describe the specific strategies implemented to address behavioral health disparities in your high-need community(ies). Include any information on how you, as the grantee, are supporting its/their progress.	Free text

Use and Reach of Prevention Efforts

Ensuring that the prevention efforts reach the populations experiencing the behavioral health disparity and that they in turn use them is another important factor. Use this section to enter information about steps you are taking to monitor implementation at the community level to address behavioral health disparities.

Accomplishments and Barriers/Challenges

Use this section to enter information on any Accomplishments and/or Barriers/Challenges that you experienced while performing activities related to Behavioral Health Disparities. Each Accomplishment or Barrier will be listed in the table. Use the table heading links to sort Accomplishments/Barriers/Challenges by column. Click on the Name that you've assigned to each Accomplishment or Barrier to edit that record. You will also report on actions taken to resolve Barriers/Challenges related to Behavioral Health Disparities during this reporting period.

Only update this section if you conducted Behavioral Health Disparities-related activities or faced new Behavioral Health Disparities-related Barriers/Challenges during this reporting period.

Implementation

Implementation is the point at which you or your subrecipient communities conduct your intervention activities.

Accomplishments and Barriers/Challenges

Use this section to enter information on any Accomplishments and/or Barriers/Challenges that you or your subrecipients experienced while performing activities related to Implementation. Each Accomplishment or Barrier will be listed in a table. Use the table heading links to sort Accomplishments/Barriers/Challenges by column. Click on the Name that you've assigned to each Accomplishment or Barrier to edit that record. You will also report on actions taken to resolve Barriers/Challenges related to Implementation during this reporting period.

Only update this section if you or your subrecipients conducted Implementation-related activities or faced new Implementation-related Barriers/Challenges during this reporting period, for example if you funded subrecipients or if your subrecipient communities began implementing interventions.

Evaluation

The Evaluation Step is comprised of conducting, analyzing, reporting on and using the results of outcome evaluation. Outcome evaluation involves collecting and analyzing information about whether the intended Goals and Objectives were achieved. Evaluation results identify areas where modifications to prevention strategies may be needed, and can be used to help plan for sustaining the prevention effort as well as future endeavors.
