September 27, 2021

This is a non-substantive change request to the CMS 1135 Waiver/Flexibility Request and CMS 1135 Inquiry web pages from the ‘Submission of 1135 Waiver Request Automated Process’ that was approved as OMB number 0938-1384. We found typographical errors in our PII and PHI information on the web form. These minor corrections will not cause any changes in burden. The changes are as follows:

CMS 1135 Waiver/Flexibility Request web page

- Correct an error on page 2, such that “Publically” Identifiable Information (PII) is now “Personally” Identifiable Information (PII) located after section 4 (Submit Your Request) of the web form.
- Correct an error on page 2, such that “Public” Health Information (PHI) is now “Protected” Health Information (PHI) located after section 4 (Submit Your Request) of the web form.

CMS 1135 Inquiry web page

- Correct an error on pages 5 and 7, such that “Publicly” Identifiable Information (PII) is now “Personally” Identifiable Information (PII) located after section 4 (Submit Your Request) of the web form.
- Correct an error on pages 5 and 7, such that “Public” Health Information (PHI) is now “Protected” Health Information (PHI) located after section 4 (Submit Your Request) of the web form.

These changes have no impact on the previously stated burden associated with this collection, which assumed that the errors listed would not exist.
