Welcome to the 2021 Center Director survey. This survey is part of the Study of Coaching Practices in Early Care and Education Settings 2021: Follow-up (SCOPE), a study being conducted for the Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS) by Mathematica.

You may remember completing a center director survey for this study in 2019. This is a follow-up survey that will ask about your experience working as a center director within an early care and education (ECE) setting since COVID-19 began in early 2020. Even if you are no longer the center director, we would still like you to answer a few questions. When we refer to coaching or coaches in this survey, we mean individuals who work with teachers one-on-one or with their teaching team on a regular basis to provide feedback and guidance to help them improve their practices. The coaches may be working remotely, inperson or both. In addition, the teachers the coaches are working with could be teaching children remotely, in-person or both. You may use terms other than "coaches", such as mentors, mentor-coaches, or consultants. When we refer to teaching staff in this survey, we mean staff who work directly with preschool-age children in classrooms in your center.

When responding to questions in this survey, please think only about coaching provided directly to teaching staff in one-on-one or teaching team settings, and <u>not</u> about any coaching that happens at the center level.

lf

you have any questions about the study or your participation, please email us at CoachSCOPE@mathematica-mpr.com.

We would like you to know that:

- The survey takes about 20 minutes to complete. All eligible study participants who complete this survey will receive \$20 as a thank you.
- The information in this study will be used only for research purposes and in ways that will not reveal who you are. We will not provide information that identifies you to anyone outside the study team, except as required by law. You will not be identified in any publication from this study. Data from this study will be transmitted to the Child & Family Data Archive or a similar data archive at the end of the study so it can be used by other researchers. No personal information that could identify you will remain in the files that will be shared with the data archive.
- This survey is voluntary, but your response is critical for producing valid and reliable data. You may skip any questions you do not wish to answer; however, we hope that you answer as many questions as you can. If you have any questions about your rights as a research volunteer, contact Caroline Lauver toll free at 1-844-SCOPE18 (1-844-726-7318). If you would like a copy of this disclosure statement, please email us at CoachSCOPE@mathematica-mpr.com or call us toll free at 1-844-SCOPE18 (1-844-726-7318).

Thank you very much for your participation in this survey!

Paperwork Reduction Act Statement: The referenced collection of information is voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The valid OMB control number for this information collection is 0970-0515 which expires 07/31/2022. The time required to complete this collection of information is estimated to average 20 minutes, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the collection of information. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: Mathematica, 1100 1st Street, NE, 12th Floor, Washington, DC 20002, Attention: Emily Moiduddin.

How to complete the survey

Thank you for taking the time to complete this survey.

- There are no right or wrong answers.
