

applicant is aware of the requirements of the permit and his/her legal rights. Refuge-specific special conditions may be required for the permit. We identify conditions as an addendum to the permit. Most of the special conditions pertain to how a permitted activity may be conducted and do not require the collection of information. However, some special conditions, such as activity reports, before and after site photographs, or data sharing, would qualify as an information collection, and we have included the associated burden below.

We also use FWS Form 3-1384, "Bid Sheet—National Wildlife Refuge System," to streamline collection of the necessary pre-award information from applicants during bidding processes to conduct economic uses on Service lands, such as livestock, harvesting hay and stock feed, or removing timber (50 CFR 29.21). This form simplifies the pre-award selection/bidding process for bidders and for refuge staff by enabling them to understand what information the refuge needs in order to select bids for economic use, and, therefore, reduces the time and burden for the public and Service staff in the pre-award selection bidding process. This form is customizable to the individual economic use being awarded. We will use the Commercial Special Use Permit (FWS Form 3-1383-C) as the actual award document that will outline the terms and conditions of the economic use on Service lands.

Proposed Revisions to This Information Collection

With this submission, we are proposing the following revisions to the existing information collection:

Activity Reports/Associated Document Requirements

In addition to the previously approved activity report criteria, the Service will also collect data associated with client use days and their fees. The Service has also updated the reporting rate for permits issued for both Commercial Use and Research to reflect current requirements.

ePermits Initiative

The Service's new "ePermits" initiative is an automated permit application system that will allow the agency to move towards a streamlined permitting process to reduce public burden. Public burden reduction is a priority for the Service; the Assistant Secretary for Fish, Wildlife, and Parks; and senior leadership at the Department of the Interior. The intent of the ePermits initiative is to fully automate

the permitting process to improve the customer experience and to reduce time burden on respondents. This new system will enhance the user experience by allowing users to enter data from any device that has internet access, including PCs, tablets, and smartphones. It will also link the permit applicant to the *Pay.gov* system for payment of the associated permit application fee. We anticipate including the following Service forms in the ePermits system: 3-1383-G, 3-1383-C, 3-1383-R, and 3-1384.

Once these forms are automated in the new ePermits system, we anticipate a reduction in the amount of time necessary for an applicant to apply for a permit and perform regular actions related to that permit (e.g., amend, renew, report). Through the ePermits account registration, we will track and be able to more accurately report the number of small business applicants, along with the type of business (for-profit, farm, not-for profit). This information will allow the Service to be more responsive in identifying the possibility of additional burden reduction on small businesses.

We also plan to eliminate the necessity for physical mail-in applications (though this will remain an option for those who either don't have access to the internet or prefer to use mail-in applications), thus further reducing public burden. With ePermits, an applicant will be able to establish an account and apply for multiple permits through a single interface. The system allows the applicant to track all their applications, permits and permit-related actions, as well as all communications between Service staff and the permittee/applicant within the same interface, significantly reducing the burden on the government to process these applications and manage permit-related actions. The decrease in submissions of paper-based forms is expected to reduce the government cost of administering and processing permit applications.

Amendments and Renewals

Through our review of the special use permitting process in preparation for automation in the ePermits system, we discovered that we need to account for amendments to and renewals of special use permits separately from the initial applications, because amendments/renewals have time burdens that are different from those of the initial submissions. The revised burden table below includes our initial estimates for amendments and renewals.

Title of Collection: National Wildlife Refuge Special Use Permit Applications

and Reports, 50 CFR 25, 26, 27, 29, 30, 31, 32, & 36.

OMB Control Number: 1018-0102.

Form Number: FWS Forms 3-1383-G, 3-1383-C, 3-1383-R, and 3-1384.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Individuals and households; businesses and other for-profit organizations; nonprofit organizations; farms; and State, local, or tribal governments.

Total Estimated Number of Annual Respondents: 13,903.

Total Estimated Number of Annual Responses: 13,903.

Estimated Completion Time per Response: Varies from 25 minutes to 5 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 21,446.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion for applications; annually or on occasion for reports.

Total Estimated Annual Nonhour Burden Cost: \$337,500 for fees associated with applications for commercial use activities (\$100.00 × an estimated 3,375 applications (individuals and private sector respondents only)).

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Madonna Baucum,

Information Collection Clearance Officer, U.S. Fish and Wildlife Service.

Agency Information Collection Activities; Submission to the Office of Management and Budget; Federal Fish and Wildlife Applications and Reports—Law Enforcement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service

(Service), are proposing to renew an information collection with revisions.

DATES: Interested persons are invited to submit comments on or before March 18, 2022.

ADDRESSES: Send your comments on the information collection request (ICR) within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS: PRB (JAO/3W), 5275 Leesburg Pike, Falls Church, VA 22041–3803 (mail); or by email to Info_Coll@fws.gov. Please reference Office of Management and Budget (OMB) Control Number 1018–0092 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT:

Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358–2503. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance. You may also view the information collection request (ICR) at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

On September 27, 2021, we published in the **Federal Register** (86 FR 53337) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on November 26, 2021. In an effort to increase public awareness of, and participation in, our public commenting processes associated with information collection requests, the Service also published the **Federal Register** notice on [Regulations.gov](https://www.regulations.gov) (Docket FWS–HQ–LE–2021–0109) to provide the public with an additional method to submit comments (in addition to the typical [\[fws.gov\]\(mailto:fws.gov\) email and U.S. mail submission methods\). We received the following comments in response to that notice:](mailto:Info_Coll@</p>
</div>
<div data-bbox=)

Comment 1: Comment received electronically via [Regulations.gov](https://www.regulations.gov) (Comment ID: FWS–HQ–LE–2021–0109–0002) from Jean Publieee on September 26, 2021: The commenter suggested public scrutiny as part of the process to allow a person to trade in wildlife, and alleged that criminals were taking advantage of the wildlife and profiting from the process. The commenter referenced a 2017 case of illegal export.

Agency Response to Comment 1: The commenter did not address the information collections, but rather addresses important aspects of the enforcement process. The public scrutiny of applications recommendation is not a feasible element of the permitting regulations process. This request is specific to the application process for permits to allow a person to trade in wildlife, while there is a separate process by the Office of Law Enforcement to document violations.

Comment 2: Comment received electronically via [Regulations.gov](https://www.regulations.gov) (Comment ID: FWS–HQ–LE–2021–0109–0003) from Jean Publieee on September 26, 2021: Commenter did not support moving to a complete computer (automated) process, given the vulnerabilities of automated systems and the fact that not everyone has (access to) a computer.

Agency Response to Comment 2: We note the comment and would like to advise the public that paper applications will still be available for manual, mail-in submissions. However, our efforts respond to the Service’s need to move to a more efficient electronic process and reduce the burden on the public.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*) makes it unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (see 16 U.S.C. 1538(d)). The ESA also requires that fish or wildlife be imported into or exported from the United States only at a designated port, or at a nondesignated port under certain limited circumstances (see 16 U.S.C. 1538(f)). This information collection includes the following permit/license application forms:

FWS Form 3–200–2, “Designated Port Exception Permit”

Under 50 CFR 14.11, it is unlawful to import or export wildlife or wildlife products at ports other than those designated in 50 CFR 14.12, unless you qualify for an exception. The following exceptions allow qualified individuals, businesses, or scientific organizations to import or export wildlife or wildlife products at a nondesignated port:

- (a) To export the wildlife or wildlife products for scientific purposes;
- (b) To minimize deterioration or loss; or
- (c) To relieve economic hardship.

To request authorization to import or export wildlife or wildlife products at nondesignated ports, applicants must complete FWS Form 3–200–2. Designated port exception permits can be valid for up to 2 years. We may require a permittee to file a report on activities conducted under authority of the permit.

FWS Form 3–200–3a, “Federal Fish and Wildlife Permit Application Form: Import/Export License—U.S. Entities,” and 3–200–3b, “Federal Fish and Wildlife Permit Application Form: Import/Export License—Foreign Entities”

It is unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (50 CFR 14.91). Applicants located in the United States must complete FWS Form 3–200–3a to request this license. Foreign applicants that reside or are located outside the United States must complete FWS Form 3–200–3b to request this license.

We use the information collected on FWS Forms 3–200–3a and 3–200–3b as an enforcement tool and management aid to (a) monitor the international wildlife market and (b) detect trends and changes in the commercial trade of wildlife and wildlife products. Import/export licenses are valid for up to 1 year. We may require a licensee to file a report on activities conducted under authority of the import/export license.

Proposed Revisions

Automation in eLicense System

With this submission, we also seek OMB approval to automate FWS Forms 3–200–2, “Designated Port Exception Permit” (50 CFR parts 13 and 14); Form 3–200–3a, “Federal Fish and Wildlife Permit Application Form: Import/Export License-U.S. Entities” (50 CFR parts 13 and 14); and Form 3–200–3b, “Federal Fish and Wildlife Permit Application Form: Import/Export License-Foreign

Entities” (50 CFR parts 13 and 14) in a new eLicense system. This automation is expected to reduce the burden on the public. The eLicense system will also simplify the application process and give the applicant the ability to pay online through *Pay.gov* via credit card or direct bank payment. This will reduce the number of applicants requesting multiple licenses for the same business and will reduce the number of incorrect addresses and bounced checks that we receive. In addition, we removed the requirement to provide the dates of birth for U.S. agents on Forms 3–200–2 and 3–200–3b.

Automation in ePermits System

With this submission, we propose a revision to the collection to obtain OMB approval to automate Form 3–200–44, “Permit Application Form: Registration of an Agent/Tannery under the Marine Mammal Protection Act (MMPA),” and Form 3–200–44a, “Registered Agent/Tannery Bi-Annual Inventory Report,” in the Service’s “ePermits” system. The ePermits system is an automated permit application system that streamlines the permitting process to reduce public burden. Public burden reduction is a priority for the Service; the Assistant Secretary for Fish, Wildlife, and Parks; and senior leadership at the Department of the Interior. The ePermits system fully automates the permitting process to improve the customer experience and to reduce time burden on respondents. This system also enhances the user experience by allowing users to enter data from any device that has internet access, including PCs, tablets, and smartphones. Furthermore, the system

links the permit applicant to the *Pay.gov* system for payment of any associated permit application fees.

Until we have actual usage data from the eLicense and ePermits systems, we are splitting the previously approved public burden equally between hard copy and electronic submissions (see burden table below). After the forms are operational in the two systems for at least 12–18 months, the Service will have more reliable burden data to submit to OMB in conjunction with the next renewal of this collection.

Title of Collection: Federal Fish and Wildlife Applications and Reports-Law Enforcement; 50 CFR parts 13 and 14.

OMB Control Number: 1018–0092.

Form Number: FWS Forms 3–200–2, 3–200–3a, 3–200–3b, 3–200–44, and 3–200–44a.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Individuals, private sector, and State/local/Tribal entities.

Respondent’s Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion for Forms 3–200–2, 3–200–3a, 3–200–3b, 3–200–44, and reporting requirements and biannually for Form 3–200–44a.

Total Estimated Annual Nonhour Burden Cost: \$1,188,700. There is a \$100 fee associated with applications (Forms 3–200–2, 3–200–3a and 3–200–3b) and a \$150 fee associated with application (Form 3–200–44) received from individuals and the private sector. There is no fee for applications from government agencies or for processing reports.

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX21ZS00COM0000; OMB Control Number 1028–NEW]

Agency Information Collection Activities; Assessing Community Needs for Terrestrial Analog Studies

AGENCY: Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before April 18, 2022.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; and by email to: *gs-info_collections@usgs.gov*. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Lauren Edgar by email at *ledgar@usgs.gov*, or by telephone at 928–556–7213. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance. You may also

view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:
