**The Study of Title II-A Use of Funds** is examining how states and districts are using their Title II, Part A funds provided through the Elementary and Secondary Education Act (ESEA). The study includes surveys of officials from all state education agencies and from a representative sample of school district officials from each state. The purpose of this survey is for the U.S. Department of Education to gain a better understanding of how school districts are using their Title II, Part A funds. The United States (U.S.) Department of Education, Office of the Chief Data Officer (OCDO) is sponsoring this study. While participation in the LEA survey is not mandatory, it is strongly encouraged in order to provide the Title II, Part A program office with information important that the Department can use to benefit to the program. The study, including this survey, is being conducted by Westat.
