International Resource Information System

WELCOME

Congratulations on receiving a grant award for a Title VI, and/or Fulbright-Hays project. The U.S. Department of Education (US/ED) requires grant recipients to administer their projects efficiently and to submit annual and final performance reports about project objectives, impacts, and outcomes.

The International Resource Information System (IRIS) online information system provides access to screens that allow grantees to conduct the day-to-day administrative tasks related to the funded project as well as submit the required performance reports.

Click on a tab on the Home page to be directed to the relevant screens and instructions for initiating and completing administrative or reporting tasks.

Please be advised that although various project staff may participate in the administration and reporting activities associated with the project, the "Project Director" named on the grant award documents is the only person that the US/ED authorizes to submit the annual and final performance reports on behalf of the grantee.

The IFLE program officers are available to assist you with project-related questions. If you have system-related questions, please contact IRIS Help Desk at the [Contact Us](#) link.

This is a United States Department of Education computer system, which may be accessed and used only for official Government business by authorized personnel. Unauthorized access or use of this computer system may subject violators to criminal, civil, and/or administrative action.

Priorities

Select which program priorities your project addresses by clicking the Yes radio button. Describe the grant activities conducted during the reporting period that addressed the announced program priorities, and indicate whether grant (or matching) funds were used to support the activities.

FLAS Competitive Preference Priority1: Applications that propose to give preference when awarding fellowships to undergraduate students, graduate students, or both, to students who demonstrate financial need as indicated by the students' expected family contribution, as determined under part F of title IV of the HEA. This need determination will be based on the students' financial circumstances and not on other aid. The applicant must describe how it will ensure that all fellows who receive such preference show potential for high academic achievement based on such indices as grade point average, class ranking, or similar measures that the institution may determine. For grants awarded with fiscal year 2014 funds, the preference applies to fellowships awarded for study during academic years 2015-16, 2016-17, and 2017-18. (limit 2000 characters and spaces)
