

Clean Watersheds Needs Survey Information Collection Request Appendix A: Data Entry Portal Screenshots & Wireframes

Data Entry Portal Representations

- For the purposes of the ICR, the Clean Watersheds Needs Survey (CWNS) Data Entry Portal is being represented by screenshots of the pre-alpha version of the DEP and wireframes.
- Wireframes are a simplified visual guide that represents the skeletal framework of a website.
- The wireframes presented here do not define any visual style, typography or imagery, so the actual page will look very different.
- All examples presented in the screenshots and wireframes are not real.
- All wireframes and screenshots are draft and are incomplete and subject to change.
