

VA Loan Electronic Reporting Inter

Servicing Events Import Spreadsheet - Version 2.0

Effective Date: April 29, 2021

Introduction

Welcome to the VALERI servicing events import spreadsheet. This spreadsheet is a tool that allows you to report servicing events to the Department of Veterans Affairs using the VALERI servicer web portal. If you have any questions, please contact your organization's system administrator.

How to use this spreadsheet:

Each worksheet in this document represents a template for one type of event. Each column represents a field required by the VA for that event. Each row should contain one event of the type specified for the worksheet. For example, for the "LoanPaidInFull" event, each line would contain a loan that has been paid in full, and the supporting documentation. Each field has a specified data type in parentheses next to the column name. These data types are defined in the Data Types section.

For specific requirements for each event type, please see the Documentation Tab.

Required fields have a green column header.

Data Types:

Text	An alphanumeric value. Limited to the length specified on the column header.
Money	A number with 13 digits to the left of the decimal, and two to the right of the decimal.
Integer	A number with no decimal. Limited from -2,147,483,647 to 2,147,483,647.
InterestRate	A number with 2 digits to the left of the decimal, and 4 to the right of the decimal.
