

2022 Survey of Veteran Enrollees' Health and Use of Health Care

Welcome to the **2022 Survey of Veteran Enrollees' Health and Use of Health Care**. This annual VA survey asks how Veterans use VA health services and what types of services they do or do not use. Your participation is voluntary, although we hope you will help us as we plan for the needs of those enrolled in VA health care. Even if you are not a current user of VA Health Care, your answers to the survey questions are important. This survey takes about 20 minutes to complete.

Paperwork Reduction Act Statement: This information is being collected in accordance with section 3507 of the Paperwork Reduction Act of 1995. Accordingly, we may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a valid OMB number. We anticipate that the time expended to complete this survey will average 20 minutes. This includes the time needed to follow instructions, gather the necessary facts, and respond to the questions. This information is being collected to better understand Veterans' health and use of health care. The results of this survey will help inform improvements in the quality of service delivery by providing additional background information about the participants to better serve them. Any information you provide will be kept private to the extent provided by law. Participation in this survey is voluntary, and failure to respond will not have any impact on your entitlement to benefits.

If you require assistance from another person to complete this survey, it is alright to ask another person to fill the survey out on your behalf as long as they are able to answer questions about your health care, health benefits, and health status.
