

APPENDIX G

NTEWS Rotating Panel Design Chart

Figure 1. Rotating Panel Design for the National Training, Education, and Workforce Survey (NTEWS) program, by survey collection year

Survey Collection Year	Panel				
2022	New sample				2022 Total
	2018 ACS (n=43,200)				43,200
2024	Returning sample	New sample			2024 Total
	2018 ACS (n=25,000)	2022 ACS (n=95,000)			120,000
2026	Returning sample		New sample		2026 Total
	2018 ACS (n=24,000)	2022 ACS (n=60,000)	2024 ACS (n=50,000)		134,000
2028	Returning Sample			New sample	2028 Total
	2018 ACS (n=23,000)	2022 ACS (n=30,000)	2024 ACS (n=31,000)	2026 ACS (n=50,000)	134,000
2030	Returning Sample			New sample	2030 Total
		2022 ACS (n=29,000)	2024 ACS (n=30,000)	2026 ACS (n=31,000)	2028 ACS (n=50,000)

- The 2022 NTEWS with a relatively small sample size is the base-year collection.
- Full-scale collection begins with the 2024 NTEWS collection.
- The NTEWS will draw its sample from the American Community Survey (ACS) two years prior, with one exception: the 2022 NTEWS drew from the 2018 ACS instead of the 2020 ACS because of concerns about reliability in that year's collection as a result of the coronavirus pandemic.
