Previously Published Directives That Have Not Been Finalized

The following proposed and interim directives have been published for public comment but have not yet been finalized:

1. Forest Service Manual (FSM) 2200, Rangeland Management, Chapters Zero Code; 2210, Rangeland Management Planning; 2220, Management of Rangelands (Reserved); 2230, Grazing Permit System; 2240, Rangeland Improvements; 2250, Rangeland Management Cooperation; and 2270, Information Management and Reports; FSH 2209.13, Grazing Permit Administration Handbook, Chapters 10, Term Grazing Permits; 20, Grazing Agreements; 30, Temporary Grazing and Livestock Use Permits; 40, Livestock Use Permits; 50, Tribal Treaty Authorizations and Special Use Permits; 60, Records; 70, Compensation for Permittee Interests in Rangeland Improvements; 80, Grazing Fees; and 90, Rangeland Management Decision Making; and Forest Service Handbook 2209.16, Allotment Management Handbook, Chapter 10, Allotment Management and Administration.

2. FSM 3800, Landscape Scale Restoration Program.

Final Directives That Have Been Issued Since April 1, 2022

1. FSM 2710, Special Use Authorizations, and FSH 2709.11, Special Uses Handbook, Chapter 50, Standard Forms and Supplemental Clauses. The Forest Service published final directives related to the storage and use of explosives authorized by special use authorizations. Some special use permit holders use various types of explosives and sometimes military munitions for avalanche mitigation, tree and rock removal, road construction, maintenance, and other construction projects. Holders of ski area permits and state transportation authorities maintain additional magazines for these purposes.

The final directives clarify the role and jurisdiction of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), the Department of the Army, states, and the Forest Service over explosives use and storage when authorized on National Forest System lands, including explosives magazine security. These directives provide that special use authorization holders that are authorized to store and use

explosives must comply with all ATF regulations, state and Army requirements, if applicable, and Forest Service requirements. The directives make compliance with the special use authorization contingent upon continued compliance with these requirements. The directives provide for training of permit administrators to ensure that they can effectively monitor the requirements of a holder's operating plan, including required magazine security provisions. The 60-day comment period for this directive began June 23, 2020, and closed August 22, 2020. Five public comments were received on the proposed directives, which can be viewed at <https://cara.fs2c.usda.gov/Public/ReadingRoom?project=ORMS-2226>. The final directives were issued May 12, 2022, and can be viewed at https://www.fs.fed.us/im/directives/fsh/2709.11/wo_2709.11_50_Amend%202022-2.docx https://www.fs.fed.us/im/directives/fsm/2700/wo_2710_Amend-2022-2.docx.

2. FSM 7700, Travel Management, Chapters Zero and 10, Travel Planning. The Forest Service has issued final directives that clarify how electric bicycles (e-bikes) are managed on National Forest System lands. The directives add a definition of e-bikes as a class of motor vehicle, including separate definitions for Class 1, 2 and 3 e-bikes; establish criteria for consideration in designating National Forest System roads, National Forest System trails, and areas on National Forest System lands for e-bike use that are not currently designated for motor vehicle use; update the definition of "bicycle," and align Forest Service directives with regulations promulgated by the U.S. Department of the Interior bureaus by adding e-bike definitions and requiring site-specific decision-making and environmental analysis. The 30-day comment period for these directives began September 24, 2020, and closed October 26, 2020. Over 9,140 public comments were received on the proposed directives, which can be viewed at <https://cara.fs2c.usda.gov/Public/ReadingRoom?project=ORMS-2619>. Approximately 6,020 were unique letters; only five percent included substantive comments. The final directives provide for managing all classes of e-bikes as motor vehicles and require local-level decision-making and environmental analysis to allow use of e-bikes on non-motorized trails, consistent with the Forest Service's Travel Management Rule. The final directives were issued March 31, 2022, and can be viewed at <https://>

Estimated Total Annual Burden on Respondents: 604 hours.

Abstract: The Rural Utilities Service (RUS) manages loan programs in accordance with the RE Act of 1936, as amended (7 U.S.C. 901 *et seq.*). An important part of safeguarding loan security is to see that RUS financed facilities are being responsibly used, adequately operated, and adequately maintained. Future needs must be anticipated to ensure that facilities will continue to produce revenue and loans will be repaid as required by the RUS mortgage. A periodic operations and maintenance (O&M) review, using the RUS Form 300, in accordance with 7 CFR part 1730, is an effective means for RUS to determine whether the Borrower's systems are being properly operated and maintained, thereby protecting the loan collateral. The O&M review is also used to rate facilities and can be used for appraisals of collateral as prescribed by OMB Circular A–129, Policies for Federal Credit Programs and Non-Taxable Receivables.

The loans and loan guarantees finance the construction of electric distribution, transmission, and generation facilities, including system improvements and replacement required to furnish and improve electric service in rural areas, as well as demand side management, energy efficiency and conservation programs, and on-grid and off-grid renewable energy systems. Loans are

made to cooperatives as well as to corporations, states, territories and subdivisions and agencies such as municipalities, people's utility districts, and nonprofit, limited dividend or mutual associations that provide retail electric service needs to rural areas or supply the power needs of distribution borrowers in rural areas.

Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

(b) the accuracy of the agency's estimate of the burden of the collection of information including the validity of the methodology and assumptions used.

(c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Copies of this information collection can be obtained from Arlette Mussington, Rural Development Innovation Center—Regulations Management Division, at (202) 720–2825. Email: arlette.mussington@usda.gov.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
