on Heritable Disorders in
Newborns and Children

NET BENEFIT/ CERTAINTY		READINESS			FEASIBILITY	
		Ready	Developmental	Unprepared		
SIGNIFICANT Benefit	Certainty HIGH	A1 Screening for the condition has a high certainty of significant net benefits, screening has high or moderate feasibility. Most public health departments are ready to screen.	A2 Screening for the condition has a high certainty of significant net benefits and screening has high or moderate feasibility. Public health departments have only developmental readiness.	A3 Screening for the condition has a high certainty of significant net benefits and screening has high or moderate feasibility. Public health departments are unprepared for screening.	Feasibility	HIGH or MODERATE
		A4 There is high certainty that screening would have a significant benefit; however, most health departments have low feasibility of implementing population screening.				LOW
		MOD	B 1-4 There is moderate certainty that screening would have a significant benefit.			
Small to ZERO Benefit	Certainty MOD/HIGH	C 1-4 There is high or moderate certainty that adoption of screening for the targeted condition would have a small to zero net benefit.				---
NEG Benefit		D 1-4 There is high or moderate certainty that adoption of screening for the targeted condition would have a negative net benefit.				---
