Date

Dear Officer _____:

As a previous participating member of the Buffalo police stress and health study, we would once again like to welcome you to come to the University at Buffalo. We will be conducting a study on the effects of COVID-19 on your stress and health.

During our previous study, we appreciated the help and cooperation you provided. It spoke well to the professionalism and graciousness of all Buffalo police officers. We learned some valuable scientific information about the effects of police stress on health. Our hope is that your participation in this study will contribute even more to the health and well being of all police officers.
