Title: Performance Monitoring of CDCs Core State Injury Prevention Program

Project Id: 0900f3eb81d460c4

Accession #: NCIPC-ET-5/3/21-150f6

Project Contact: Stacey A Willocks

Organization: NCIPC/DIP/PIEB/ET

Status: **Pending Regulatory Clearance**

Intended Use: **Project Determination**

Estimated Start Date: 09/01/2021

Estimated Completion Date: 07/31/2026

Description & Funding

Description

Priority: Standard

Date Needed: 06/16/2021

Determination Start Date: 06/02/21

Description:

This Notice of Funding Opportunity (CDC-RFA-CE21-2101) supports health department infrastructure, data and partnerships to identify and respond to existing and emerging injury threats with data-driven public health actions. These actions are intended to increase protective factors and reduce risk factors using the best available evidence for injuries and death. Such an approach includes engaging in robust data and surveillance, strengthening strategic collaborations and partnerships, and conducting assessment and evaluation. The overall goal of this approach is to inform public health action for injury prevention. An enhanced funding component is available for recipients to implement and evaluate prevention strategies while incorporating novel surveillance activities, with the goal of contributing practice-based evidence to strengthen the overall evidence base for injury prevention. While all recipients will focus their strategic efforts on prevention of traumatic brain injury (TBI), transportation-related injury, and Adverse Childhood Experiences (ACES), recipients are also encouraged to examine their data and flex up to 25% of their award to address identified priority injury topics of local concern (i.e. drowning, older adult falls, or suicide). This project determination is specific to the Core SIPP performance monitoring only. The NOFO has already been cleared.

IMS/CIO/Epi-Aid/Chemical Exposure Submission: No

IMS Activation Name: Not selected

Primary Priority of the Project: Not selected

Secondary Priority(s) of the Project: Not selected

Task Force Associated with the Response: Not selected

CIO Emergency Response Name: Not selected

Epi-Aid Name: Not selected

Assessment of Chemical Exposure Name: Not selected

Goals/Purpose

The goal is to collect performance monitoring data via a web-based Partners Portal. This data is needed to monitor cooperative agreement program funded under the Core State Injury Prevention Program (Core SIPP) (CDC-XXX-XX).

Objective:

The objectives are to: monitor recipients' progress in implementing the Core SIPP, identify challenges to inform CDC technical assistance support to recipients, and to provide accountability to DIP and NCIPC leadership, as well as congress for the funds administered through this NOFO.

Does this project include interventions, services, or policy change work aimed at improving the health of Yes

groups who have been excluded or marginalized and /or decreasing disparities?:

Project does not incorporate elements of health equity science: Not Selected

Measuring Disparities: Yes

Studying Social Determinants of Health (SDOH): Not Selected

Assessing Impact: Not Selected

Methods to Improve Health Equity Research and Practice: Not Selected

Other: Not Selected

Activities or Tasks: Programmatic Work

Target Populations to be Included/Represented: No Human Population

Tags/Keywords: Capacity Building

CDC's Role: CDC employees will provide substantial technical assistance or oversight ; CDC is providing funding

Method Categories: QA/QI

Methods: Awardees will report progress and activity information to CDC on an annual schedule using a web-based Partners' Portal. No research design or human subjects involved.

Collection of Info, Data or Biospecimen: Awardees will enter programmatic information into a web-based Partners' Portal.

Expected Use of Findings/Results: Data will be used to monitor the cooperative agreement program funded under the Core State Violence and Injury Prevention Program (Core SIPP) (CDC-XXX-XX).

Could Individuals potentially be identified based on Information Collected? No

Regulation and Policy

Do you anticipate this project will be submitted to the IRB office No

Estimated number of study participants

Population - Children

Population - Minors

Population - Prisoners

Population - Pregnant Women

Population - Emancipated Minors

Suggested level of risk to subjects Do you anticipate this project will be exempt research or non-exempt research

Requested consent process wavers

Informed consent for adults	No Selection
Children capable of providing assent	No Selection
Parental permission	No Selection
Alteration of authorization under HIPPA Privacy Rule	No Selection

Requested Waivers of Documentation of Informed Consent

Informed consent for adults	No Selection
-----------------------------	--------------

Children capable of providing assent No Selection

Parental permission No Selection

Consent process shown in an understandable language

Reading level has been estimated No Selection

Comprehension tool is provided No Selection

Short form is provided No Selection

Translation planned or performed No Selection

Certified translation / translator No Selection

Translation and back-translation to/from target language(s) No Selection

Other method No Selection

Clinical Trial

Involves human participants No Selection

Assigned to an intervention No Selection

Evaluate the effect of the intervention No Selection

Evaluation of a health related biomedical or behavioral outcome No Selection

Registerable clinical trial No Selection

Other Considerations

Exception is requested to PHS informing those bested about HIV serostatus No Selection

Human genetic testing is planned now or in the future No Selection

Involves long-term storage of identifiable biological specimens No Selection

Involves a drug, biologic, or device No Selection

Conducted under an Investigational New Drug exemption or Investigational Device Exemption No Selection

DMP

Proposed Data Collection Start Date: 9/1/21

Proposed Data Collection End Date: 7/31/26

Proposed Public Access Level: Public

Public Access Justification: The purpose of the performance monitoring data is to enable CDC to monitor programmatic progress for funding accountability and also to inform CDC technical assistance provision to awardees.

How Access Will Be Provided for Data: The data set will not be shared publicly; however, reports based on aggregate-level data (at the recipient or program level) will be shared externally. No PII will be collected.

Plans for Archival and Long Term Preservation:
