

Public reporting burden of this collection of information is estimated to average 5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering the data, reviewing the collection of information, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden to CDC/Information Collection Review Office, 1600 Clifton Road, NE Atlanta, GA 30333.

Rate Calculation and Submission Spreadsheet for Injury Indicators Emergency Department Data – 2018

This spreadsheet is to be used for the calculation and submission of the emergency department visit-related Injury Indicator R

Please keep the following items in mind as you complete the spreadsheets.

- The spreadsheet should be completed after individual indicator case counts have been determined using t
- Only cells outlined in red will accept data input. Information copied on subsequent pages does not appear in a red box. To update information in these cells, you must return to the original red-outlined cell.
- Please answer all the questions on the background information sheets.
- Please do not insert lines into the spreadsheet pages. Additional information may be highlighted in footno
- All case count cells should be populated.
 - o Small case counts (<5) will be suppressed at CDC.
 - o Age-adjusted rates, while calculated on this spreadsheet, will not be presented for categories
- Rates will not auto-calculate until the population data has been entered. The default rate of 0 will be replac
- The spreadsheet file should be renamed inserting the appropriate state postal abbreviation into the file nam
If more than one submission is required, then the 01 should be updated to reflect submission number.

**State Injury Indicators Report
Emergency Department (ED) Data**

State:

0

The answers to the following questions will be used to better understand the completeness and c emergency department data sets. *Please complete all questions, including the Footnote for Rep*

Number of ED visits with an injury diagnosis (Table 1 in "Preparing your Data: Nonfatal ED Visits") OR an external cause of injury (Table 2 in "Preparing your Data: Nonfatal ED Visits") code

--

This is the total number of cases in the injury subset

No injury diagnosis code
Injury diagnosis code (Table 1 in "Preparing your Data: Nonfatal ED Visits")

No external cause of injury information	Code that contains external cause of injury information (Table 3 in "Preparing your Data: Nonfatal ED Visits")

Percentage of ED injury visits with external-cause-of-injury coding

Factors Affecting Representativeness of State Emergency Department Data Sets for Injury Survei

Please answer the following questions by putting an "x" in the appropriate column.

QUESTION	YES	NO
Do you estimate that all required hospitals are participating in the system?		
Are sufficient numbers of your state's residents who are injured treated in neighboring states (cross-border ED visits) such that it affects your rates?		
Are ED visits that result in hospital admission included?		
Are follow-up visits and transfers from other EDs included?		
Do you receive data on state residents treated in other states? (If yes,		

please include them in your data.)

--	--

Did use the test dataset to check your programming code? (This is not required. We are just tracking usage of the tool.)

--	--

If so, what did you find useful and/or how would you improve it?

--

State Injury Indicators Report-2018

Emergency Department (ED) Data

State:

0

Overall Data

Indicator	Age Adjusted	
	Number	Rate
Nonfatal ED Visits for All Injuries	0	0.0
Nonfatal Drowning-related ED Visits	0	0.0
Nonfatal Unintentional Fall-related ED Visits	0	0.0
Nonfatal Fall-related Hip Fracture ED Visits in 65+	0	0.0
Nonfatal Unintentional Fire-related Injury ED Visits	0	0.0
Nonfatal Firearm-related ED Visits	0	0.0
Nonfatal Assault-related ED Visits	0	0.0
Nonfatal Unintentional Motor Vehicle Traffic-related ED Visits	0	0.0
Nonfatal Nondrug Poisoning ED Visits	0	0.0
Nonfatal Intentional Self-Harm ED Visits	0	0.0
TBI ED Visits--Proposed Case Definition	0	0.0
TBI ED Visits--S09.90 as Only TBI Code	0	0.0

Sex-Specific Data

Indicator	Male		Female	
	Number	Age Adjusted Rate	Number	Age Adjusted Rate
